**Service/Usage Assistant**

Press MFB twice to activate the Service/Usage Assistant. Press MFB once to deactivate the Service/Usage Assistant.

Music Play/Pause: Press MFB once to play and pause the music.

Next Track: Press and hold touch sensor of left earphone for 1 second to move to the next track.

Previous Track: Press and hold touch sensor of right earphone for 1 second to move to the previous track.

Earphone Charging: Put earphones into charging case. They will charge automatically and earphone indicator lights in red. Indicator will turn off after 10 seconds.

Charging Case Charging: Connect a DC 5V charger to charging port with the supplied power cable to charge the charging case.

Factory Reset: Power off the earphones first. Press and hold MFB for 10 seconds until indicator lights up in red and blue at the same time for 1 second.

**Help Guide**

Power On: When the earphones power off, pressing and holding MFB for 3 seconds. When the earphones are in charging case, take them out and they power on automatically. The indicator lights up in blue for 1.5 seconds and you hear voice guidance "Power On". Power Off: Pressing and holding MFB for 6 seconds. Or put earphones back into charging case. They power off automatically. The indicator lights up in red for 1.5 seconds and you hear voice guidance "Power Off".

Step1: Take out the earphones from charging case. They will power on automatically and you hear voice guidance "Power On". And then they are ready to pair. In 5 seconds, the left earphone indicator flashes in red and blue alternately and the right earphone indicator flashes in blue.

Step2: Activate the wireless function on your device and search F22.

Step3: Click F22. You hear voice guidance "Connected" and then the indicator turns off.

**Notes**

① When the outside of the earphones is dry, clean it by wiping with a soft dry cloth. If the earphones is particularly dirty, soak cloth in a dilute solution of neutral detergent, and wring it before wiping. Do not use solvents such as thinner, benzene, or alcohol, as they may damage the surface.

② You may hear a crackling noise in your ears when wearing the earbuds. This is not a malfunction.

③ Do not subject the earphones to excessive shock.

④ The earphones sensor may not operate properly if you apply stickers or other adhesives to the earphones or the earphone control panel.

⑤ The Bluetooth function may not work well with a mobile phone due to the mobile signal interruption.
