Ref: Class 2 Permissive Change for FCC ID: 2AW6C-DMA
Original approval date: April 1, 2021
Additional C2PC dates:
Applicant: Gogo Business Aviation

To Whom It May Concern

This is to request for a Class II Permissive Change to address the following proposed changes to the hardware / firmware for this device:

To enable LTE operation in Gogo's 894-896MHz ATG band. The original grant is for operation of the aircard using the EVDO air interface. This C2PC allows operation using the 3GPP LTE air interface. No changes were made to the DMA hardware. Software commands are used to enable LTE operation by switching RF paths to LTE. All LTE conducted and radiated certification tests are included in this C2PC. Additional details are provided in the operational description exhibits for this application.

If you have any questions regarding this application, please feel free to contact me.

Sincerely yours,

A handwritten signature in black ink that reads "Michael H. Baker".

Michael H. Baker, Distinguished Member of the Technical Staff
Gogo Business Aviation
