ABS/PC/ALUMINUM ALLOY/STAINLESS STEEL

INPUT
5V/2A 9V/2A

OUTPUT
5W/7.5W/10W/15W

SIZE
135MM*46MM*85MM

WEIGHT
300G

INDICATOR
LIGHT ON - POWER ON/LIGHT OFF - POWER OFF/FLASH - METAL DETECTION

COMPATIBLE DEVICES

1. Headphone: AirPods Pro(With Magsafe battery)/Airpods Pro 2nd generation.

2. iPhone 12/13/14 series naked mac-nine / Phone case with Magsafe / Phone case without Magsafe should be used with metal plate (Please refer to the following instruction).

SELECTION AND INSTRUCTION OF VENT HOOK CLIP

1. It is recommended to use extended hook clip in winter. Avoiding warm air blow car charger straightly and reducing slow charging caused by heating.

INSTALLATION METHOD

Tip: The installation procedure is the same for the short and long hook clips

1. Loosen the fixing nut;

2. Put the rotating ball into the bolt;

3. Tighten the fixing nut;

4. Turn the hook clip adjustment knob, adjust the hook clip to the biggest length;

正面印刷

5. Hook the hook clip into the blade, turn the hook clip adjustment knob to lock the blade tightly.

6. To remove the holder, loosen the adjusting knob of the hook clip, and then remove the holder from the blade.

The blade should be kept horizontal and perpendicular to the surface of the air vent.

USING STEPS

1. Position adjustment: press the sliding adjustment button, you can adjust the Rotating ball to the position you need.

2. Direction adjustment: Loosen the support rod adjustment knob, you can rotate the support rod 360° to adjust the direction, rotate it to the position you need, and then tighten the knob to fix the direction.

Tip: If the support rod adjustment knob falls off, you can screw it back clockwise.

INSTRUCTION OF METAL PLATE

Note: This metal plate is unsuitable for uneven phone case, phone case made of liquid silicone, oil spray case, cloth leather case.

1. If your phone case without Magsafe, please install the metal plate to enable magnetic suction, process as follow.

ATTENTION

1. For using non-standard car charger: Please use car charger for QC 3.0 or more than 18W PD.

2. Metal accessories (metal plate, ring buckle) or credit card will disturb charging. Phone case with metal, such as Pitaka, Evutec and Spigen QNMP will trigger foreign body detection and interrupt charging.

3. The speed of charging will be influenced significantly if GPS and music is running when charging. Please note that electric consumption speed will be higher than charging speed when using GPS.
