INSTALLING YOUR PATHWAY LIGHTS

1. Attach a ground stake to the stand of each LED Pathway Light.

2. Plug the power adapter into power.

Note: Avoid placing the control box directly on the ground, otherwise the Wi-Fi and Bluetooth connection may be intervened.

PAIRING YOUR DEVICE WITH THE AIDOT APP

What You Need:

- A Wi-Fi router supporting the 2.4GHz and 802.11 b/g/n bands (5GHz is not supported).
- A smartphone or tablet running iOS 12.0 (or above) or Android 6.0 (or above).

Pairing Instructions

1. Scan the QR code below to download the AiDot App.

Download on the App Store Get it on Google Play

Or search for "AiDot" in App Store or Google Play.

2. Enable your smartphone's Bluetooth.

3. Open the App, tap the "+" icon in the top right corner and search for "Smart Pathway Lights".

For more information, please visit www.linkind.com or contact our support team.

LIGHTS DETECTION

When connecting to the App for the first time or adding lights, you need to click Lights Detection in the App

Note: Up to 6 lights can be connected

Note: Up to 6 lights can be connected

Troubleshooting

1. Cannot connect to AiDot App.

- Make sure the device is powered on.
- Make sure your smartphone's Bluetooth has been enabled.
- Make sure your smartphone is connected to a 2.4GHz Wi-Fi network.
- Position your smartphone close to the control box, then try connecting again.

2. One or more LED pathway lights fail to light up.

- Remove the light and then reattach it to the power cable. Also, unplug the power adapter and then plug back into power.
- If the problem persists, please contact Linkind customer service.

3. How many lights can be connected at most?

- Up to 6 lights can be connected

4. Some lights cannot be controlled.

- Refresh the number of fixtures in the App.
- If the problem persists, please contact Linkind customer service.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

To maintain compliance with FCC's RF Exposure guidelines, this equipment should be installed and operated with minimum 20cm distance between the radiator and your body. Use only the supplied antenna.
