

## Model Difference statement

To whom so ever it may concern,

On Behalf of Skylo technologies, We would like to list 3 model numbers on **FCC certificates** and reports as following.

**Model no: S-111 Mk I, S-101 Mk I, S-121 Mk I**

These models differs on three functions as described below.

- 1) **Battery:** 3.7V,12000mAh battery has been used in battery operated devices. In absence of the external power, battery can provide the power supply to the device.
- 2) **Battery charging circuit:** Charging circuit is a part of the main board and is populated in battery operated devices and not populated in external power operated devices.
- 3) **Cap-sense function:** Cap-sense button is provided on the device with indication LED. It is used to power-on and power-off the device. Device can also be powered up by connecting a external power supply. In 2 models, Cap-sense button is disabled and in one model it is enabled.

We declare that the difference of these models are as listed below:

Model number	Difference		
	Battery charging circuit	Battery	Cap-sense function
S-111 Mk I	✓	✓	✓
S-101 Mk I	✗	✗	✗
S-121 Mk I	✓	✓	✗

Note: '✓' Mark suggests that the related components are present in the model and '✗' mark suggests that the particular components are not present in that model.

Sincerely yours,
