# AEZO Frame First Set Up

1.Plug–in the power adapter included in the package, long press the power button on the back of the frame for about 5 seconds to turn on the frame.

2.Wait for about 15 seconds until the Frameo system running up.

3.Basic set up the Frame as it guided. You interact with your frame through its touchscreen. Swipe through photos, browse gallery, delete photos, or pause slideshow, all with just a tap.

- 1) First you start by selecting a language. This will be the language used throughout Frameo.
- 2) Connect your frame to the internet by connecting it to a Wi-Fi.
- 3) If a newer version of the Frameo software is available, then you will be prompted with an update dialog. It is recommended to update your frame immediately if prompted.
- 4) Set your name, and the location where you will place the frame e.g. "John Doe" and "Living room", "Kitchen" or "Office". Finally set the time zone if not correct.

1.Set the language

2.Connect the WiFi

3. Upgrade to the latest version

4. Enter your name

Now the frame is online for connecting and receiving photos or videos. Start connecting it to your phone, or families and friends.

## Download Frameo App to Your Phone

Share your moments with AEEZO digital photo frame from around the world, start from downloading a total free Frameo App to your phone.

Search “frameo” from APP Store or Google Play to download Frameo App. Or you can scan the QR code here for downloading directly.

Follow the screen guide to set up your profile such as your name and photo in the APP.

# Start Using AEEZO Frame

Start by connecting with your Phone or your families and friends by providing them with a unique code from your frame. Make sure that your friend has downloaded and installed the Frameo app first.

- 1. Tap the add friend icon  on your frame. A dialog will appear showing a unique code which is valid for 12 hours.
- 2. Now go to your phone Frameo APP, click the add friend icon  at the top left corner, input the code on the frame. Now your phone APP is connected to the Frame.
- 3. Or to share the code to your families or friends. Once they have added the code in their Frameo app, they will automatically appear on your frame and be able to send you photos.

Download the Frameo APP on your phone

Click the add friend icon on your frame

Share the code

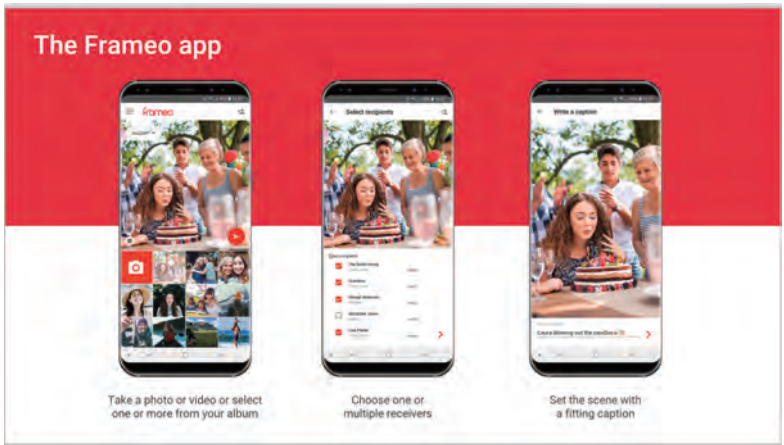

Enter the code in the Frameo app

You can now send photos from your phone to the frame

## Share Photos/ Videos From Frameo APP to AEEZO Frame

When the phone App is connected to your Frame, you are able to take a photo or video or select one or more from your album, and share it to the one or multiple frame. You can share up to 9 photos at one time or an short 15 seconds video.

## FCC WARNING

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

To maintain compliance with FCC's RF Exposure guidelines, This equipment should be installed and operated with minimum distance between 20cm the radiator your body: Use only the supplied antenna.
