

**Inside The Box:**  
**Bluetooth Speakers**  
**USB Charging Cable**  
**Necklace**

**bumpboxx**<sup>®</sup>

**Instruction Manual:**  
**Bumpboxx**

*Microboom*

**Microphone**

**Micro SD Card Slot**

**Charging Indicator LED**

**Micro USB Charging Port**

### **Getting Started:**

Connect the USB charging cable to the Micro USB charging port. Connect the opposite end to your power source and allow the speaker to fully charge before use. The Red charging Indicator LED will turn on when the battery is charging. When fully charged the LED will turn off. Press the power button to turn the speaker on. The Bumpboxx screen logo will flash while waiting to be paired with a Bluetooth device or Micro SD card to be inserted.

### **Connecting to Bluetooth:**

On your Bluetooth enabled device search for and connect to the device named "Bumpboxx". The screen logo will stop flashing once the Bluetooth is connected.

### **Connect Two speakers with TWS pairing:**

1. Turn on both speakers at the same time and the logo screens will begin to flash.
2. Press the power button quickly on one speaker and you will hear a beep. The logo screen on the opposite speaker will stop flashing to indicate that the 2 speakers are now connected.
3. Follow the steps above to pair only one speaker to the Bluetooth device named "Bumpboxx".
4. Once paired both logo screens will stay lit and the speakers are ready to play together.

### **Playing MP3 Files From a Micro SD Card:**

Insert a Micro SD card into the slot to play music. The Bumpboxx logo will turn white once a Micro SD card is inserted. Music files must be MP3 format. Remove the Micro SD card to allow Bluetooth streaming. \*Note: The Micro SD card capacity cannot exceed 32GB.

### **Answering Phone Calls:**

When receiving an incoming phone call the speaker will play an audio alert. To answer the call press the Answer Call/End Call button. The microphone is located on the top of the speaker. To end the call press the Answer Call/End Call button.

## **FCC Statement**

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Note: The Grantee is not responsible for any changes or modifications not expressly approved by the party responsible for compliance. such modifications could void the user's authority to operate the equipment.

The device has been evaluated to meet general RF exposure requirement.  
This equipment complies with FCC's RF radiation exposure limits set forth for an uncontrolled environment.  
This device and its antenna(s) must not be co-located or conjunction with any other antenna or transmitter.  
The device can be used in portable exposure condition without restriction.
