- Magnetic and metal accessories (such as cards, keys and handles ring) will interfere with wireless charging during use
- The wireless charging function is turned off when the power bank uses the TYPE-C port to charge the phone

3C DIGITAL ORIGINAL DESIGN

Features

- 5W magnetic wireless quick charging
- 10000mAh + wireless + magnetic suction 3 in 1
- 5V/2.4A quick charging
- Sync input and output for portable charging
- Accurate LED power indicators
- High quality safe polymer battery

Packing details

- Power bank, manual*1, Type-C charging cable*1

Specifications

Name: Magnetic wireless power bank
Model: A19
Type-C input: DC 5V = 2.4A
Type-C output: DC 5V = 2.4A
Rated capacity: 6000mAh(5V = 2A)
Product weight: 200g
Product size: 66*19*98mm

Wireless output: 5W
Capacity: 10000mAh 38.5WH
Executive standard: GB/T35590-2017
Working temperature: -10°C-40°C

Power Indicators

Power indicators to monitor the power status

1. Checking reminding power:

Click the button, if one white light is on, it means the power is within 25%, if two white lights are on, it means the power is within 50%, if three white lights are on, it means the power is within 75%, and if four white lights are on, it means the power is fully charged. When the last light of the light flashes, the battery level is less than 5%, please charge it as soon as possible

2. Checking charging function:

The blue light is on when wireless charging function is turned on or in standby status; the blue light is on and off slowly when the power bank charges for phone wirelessly; the blue light flashes quickly when there is dirt on the power bank; the blue light is on when the phone is fully charged

Notes and Warnings

 - If not, please choose compatible components to charge it
- When it's charging for the phone
 - Please make sure the power is on and there is power left in this device
 - If above still doesn't work, Please go to the local retailer for assistance

FCC Caution:

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

IMPORTANT NOTE:

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

—Reorient or relocate the receiving antenna.

—Increase the separation between the equipment and receiver.

—Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

—Consult the dealer or an experienced radio/TV technician for help.

FCC Radiation Exposure Statement:

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.
