Transmission distance: 6mm Max

Product Size: 120*48*120mm

Charging efficiency: 73%-80%

Accessory List

Wireless Charging x1 Type-C Fast charging cable x1 User Manuals x1

Cautions

1. Please keep the charger away from water or other liquids
2. If you need to clean the charger, please make sure it is not connected to the power supply
3. Use the ambient temperature to maintain 0-45 degrees Celsius.

Attention !

1. The mag-safe charger is specially designed for iPhone 12 series, perfect for iPhone 12, iPhone 12 Pro, iPhone 12 Mini, iPhone 12 Pro Max.

2. Please make sure you are using Magsafe Cases. It can't be compatible with non-MagSafe cases. non-MagSafe cases make the magnetic force weak and can't charge

Compatible with iPhone 12 Series Magsafe Cases

✓ NO case ✓ MagSafe case ✗ Regular case

3. Any problem, please contact us by Amazon or Email, we will send you the replacement or full refund.

FCC Warning Statement

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with a minimum distance of 20cm between the radiator & your body. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Product Description

The three-in-one magnetic desktop charger is an exquisite charging stand that can charge three devices at the same time with only one data cable. Just charge your mobile phone, Apple Watch, and wireless earphone box on the desktop to charge. The use of the desktop charger makes your desktop more tidy and life more convenient.

The design of this product is not only very space-saving, but also can help you integrate smart devices well, especially for Apple users. In addition, the atmosphere light is trendy and dazzling, with indicator lights that show the status of the charging phone and earphones! If you want to turn off or turn on the light, just touch the sensor key.

Product Appearance

Wireless charging area for cell phones

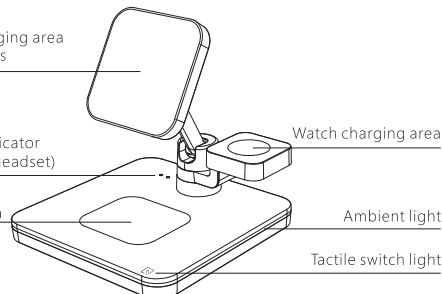

Charging indicator (cell phone, headset)

Headset Charging area

Watch charging area

Ambient light

Tactile switch light

Steps to use

1. please connect the product to the power supply.
2. put your cell phone on it to charge.
3. Take out your Apple watch (the strap rolled to the narrowest is better), put it on and suck it to charge.
4. put your headset box face up to charge.
