ELECTRIC SCOOTER

USER MANUAL

GO TRAX

Congratulations on your purchase!

This user manual will help you assemble and operate your new electric scooter. Be sure to read **ALL OF THE INFORMATION** in this manual before riding.

NOTE TO ALL RIDERS UNDER 12 YEARS OF AGE:

It's very important that you get parental permission before riding your electric scooter. Electric scooter for kids age of 6-12.

Don't Ride Until You Read This

Always wear a helmet when riding your electric scooter.

Make sure your scooter has a **full battery** before taking it out to ride.

Always be aware of local road laws, and follow them.

Do not ride the scooter under the influence of drugs or alcohol.

Always respect pedestrians.

Do not ride under wet conditions. The scooter may slide from under your feet causing injury. Wet conditions may damage the electronics and void the warranty.

Warning Message

1. **Avoid water** - The scooter is not waterproof. The electronics may be damaged due to water and water damage is not covered by our warranty. Riding in wet conditions is also very dangerous and may result in injury.
2. **Abuse** - We do not cover physical damage due to negligent care and extreme riding.
3. **Whenever you ride the HOVERFLY electric scooter**, you risk severe injury or even death from loss of control collisions, and falls. Use caution and ride at your own risk.
4. **Do not** modify the product from the manufacturer's original design.
5. **Keep** hands and all body parts away from moving parts while operating the scooter.
6. **Before riding** - be sure to check the scooter over and make sure the scooter is operating correctly before each use.
7. **Before riding** - be sure to check that the braking system is functioning properly; also be sure to check that all safety labels are in place and you understand the safety warnings.

8. **Before riding** - be sure that any and all axle guards, chain guards, or other covers or guards supplied by the manufacturer are in place and in serviceable condition.
9. **Before riding** - be sure to check that the tires are in good condition, and have sufficient tread remaining.
10. The electric scooter should be used by children between the age of 6-12.
11. **Maximum Speed** - Your electric scooter goes the maximum speed of 7.5mph.

Warning: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

* This device complies with FCC's radiation exposure limits set forth for an uncontrolled environment.

Assemble Your Scooter

1

CONNECT THE POWER CORDS

Connect the power supply cords of the front luminous wheel together.

2

ASSEMBLE FRONT AND REAR WHEEL COMPARTMENTS

Assemble the front wheel compartment and rear wheel compartment together, Take the 4 screws and use the 6mm Allen Wrench to tighten the screws. Once the screws are tightened, open the kickstand and straighten the scooter out.

3

REMOVE SCREW FROM BLOCK ON TOP OF THE TILLER

Use 4mm Allen wrench to remove the screws from the block on the top of the tiller, put the handlebar on and cover with the top of the block. Tighten the screws. Test the scooter after you've finished assembling.

Charge Your Scooter

Before using the scooter, you must fully charge the battery.

1. Open the rubber charging port cover.
2. Insert the charging plug into the port.
3. The charger box will have a green light when fully charged and a red light when charging.
4. When you are done charging be sure to cover the charging port to keep it clear of dust and debris.
5. Charging Time: 5 hours

Bluetooth Setup

The scooter features a Bluetooth speaker that can be paired with any mobile device to play audio. The Bluetooth speaker is automatically enabled when the scooter is turned on and will remain enabled and discoverable as long as the scooter is powered on. Read the instructions below to learn how to operate the scooter Bluetooth speaker.

1. To turn on Bluetooth speaker, power on the scooter as normal.
2. Turn on the Bluetooth on the mobile device you wish to pair with your scooter, Search Name **“GKS PLUS”**.
3. On your mobile device, click on **“GKS PLUS”** to connect. The Bluetooth speaker on the scooter will voice that a connection has been made and the devices are successfully paired.
4. Make sure you mobile device and the scooter remain within a reasonable distance in order to maintain a connection. The Bluetooth speaker will not far apart.
5. Play the music or audio you wish to hear on your mobile device, and it will broadcast through the scooter Bluetooth speaker.

Scooter Functions

To power the scooter on, step on the front switch button to power on the scooter. The lights and Bluetooth speaker are turned on together with the power.

To power the scooter off,

① It will automatically power off if there is no operation for 3 minutes.

② If you need to shut down manually, when there is no music playing, please press any switch and it will automatically shut down after 10 seconds.

③ If music is playing, you need to hold both the front and back switches at the same time, and then shut down after 5 seconds. Or you can stop the music, then press any switch, it will automatically shut down after 10 seconds.

The lights and Bluetooth speaker are turned off together with the power.

To accelerate the scooter, you must place your first foot on the front button and kick to start. Once you have the scooter moving then place your second foot on the back button to engage the electric motor to accelerate. (Caution: While riding the scooter if you don't wish to accelerate any more remove your foot from the back button and the motor will turn off).

To brake, remove our back foot from the back button and place our foot on the rear fender brake to slow down or stop.

Riding Tips

1. You will want to start riding your scooter with one foot on the front button and one foot on the ground. Use your foot on the ground to push off.
2. Press the rear fender foot brake with your foot to slow down or stop.
3. The scooter performs best when on a smooth surface e.g. car parks, smooth roads, footpaths, & bike lanes.
4. Always clean your scooter (wheels, platform, etc.), it's a machine and it needs to be maintained.
5. Be aware of the terrain you are riding on, watch out for curbs and obstacles!

How to Switch the light mode?

When the scooter is powered on, step on the rear switch button 3 times to switch the light mode. There are 3 lighting effect modes. When you turn on the scooter again, the light mode will be the one before the last shutdown.

Maintenance & Repair

If you regularly clean and maintain your electric scooter, it will extend its life.

Cleaning and storage: If the electric scooter surface is dirty, wipe it clean with a soft cloth.

DO NOT use alcohol, gasoline, kerosene, or other corrosive chemical solvents to clean the scooter. It can severely damage the appearance and structure of the scooter. Please do not use a pressure washer as it may also cause damage to the electronics.

Storage: When you're not using your scooter store in a dry and cool location. Avoid storing your scooter outdoors because sun exposure can damage its appearance and may cause wear on the life of the battery and tires.

Battery Information

Only use the approved **GOTRAX** power adapter to charge your scooter, others may cause risk of fire & equipment may be damaged.

Improper disposal of used batteries may seriously pollute the environment. Please comply with local disposal regulations.

Make sure to store your scooter and power adapter in conditions that do not exceed 50 °C or below -20 °C.

Warning - Risk of Fire - No User Serviceable Parts, The prolonged exposure to UV Rays, Rain and the Elements may damage the enclosed materials, store indoors when not in use.
