<input checked="" type="checkbox"/> Short Term		Test Setup Photos
<input checked="" type="checkbox"/> Short Term	<input type="checkbox"/> Permanent	User's Manual

Shanghai ChargeDot New Energy Technology Co., Ltd has spent substantial effort in developing this product and it is one of the first of its kind in industry. Having the subject information easily available to "competition" would negate the advantage they have achieved by developing this product. Not protecting the details of the design will result in financial hardship. We also request the permanent confidentiality for internal photo, and the circuit board or internal components is enclosed specially, not accessible to user or public. It requires a qualified installation engineer to install the EVSE. Required qualifications for the installation engineer must meet the requirement of the Section 3.2 of Instruction Manual as below:

- The qualified installation engineer fully knows the EVSE and its safe installation.
- The installation engineer is qualified to work on high-voltage and high-current electrical installations.
- The qualified installation engineer obeys all local rules and the instructions in the installation manual.
- It is the responsibility of the owner of the EVSE to make sure that all qualified installation engineers obey the local rules, the installation instructions, and the specifications of the EVSE.

Permanent Confidentiality:

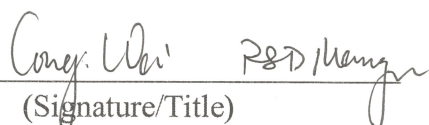

The applicant requests the exhibits listed above as permanently confidential be permanently withheld from public review due to materials that contain trade secrets and proprietary information not customarily released to the public.

Short-Term Confidentiality:

The applicant requests the exhibits selected above as short term confidential be withheld from public view for a period of 180 days from the date of the Grant of Equipment Authorization and prior to marketing. This is to avoid premature release of sensitive information prior to marketing or release of the product to the public. Applicant is also aware that they are responsible to notify TUV Rheinland in the event information regarding the product or the product is made available to the public. TUV Rheinland will then release the documents listed above for public disclosure pursuant to FCC Public Notice DA 04-1705.

Sincerely,

By:
