- · Keep product out of reach of children.

1.Power On

Press and hold "Power" button for 2 seconds. When you hear the audio prompts "Ding ding" and "ding" the blue LED will blink, indicating that the speaker is awaiting Bluetooth connection.

2.Connect to Bluetooth

Go to your device's Bluetooth list, find and connect to the device "MY MINI 2". Speaker is connected when you hear the audio prompt "Ding ding" and the blue

The MINI 2 can reconnect automatically when the Bluetooth is switched ON, for the device.

Other tips

To connect to another Bluetooth device, press and hold "+" and "-" at the same time to disconnect the current Bluetooth device. MINI 2 will enter pairing mode to await new device connection.

English

English

Main Speaker

1. TWS connection

Before starting, the speakers cannot be connected to any Bluetooth devices. Power on both MINI 2 speakers at the same time (both LED light will be flashing). Choose one speaker and press the "+" and "-" buttons at the same time, once connected, the other MINI 2 LED light will stop blinking.

2. Let TWS Speakers connect to Bluetooth device

Go to the device's Bluetooth list, find "MY MINI 2" to connect (if you see 2 MY MINI 2 on the list, the speakers are not in TWS mode) and the LED light will stop blinking.

3. TWS disconnect

On the MINI 2 press "+" and "-" buttons to disconnect the TWS.

Slave Speaker

01. Connecting two MINI 2 (TWS Mode) on the first one press "+" and "-", this speaker will become the master speaker (left channel) and the other will become the slave speaker (right channel).

02.Only supports two speakers under TWS connection.

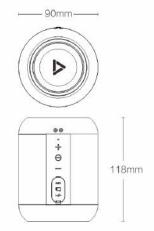

03. Speakers will remember the TWS relationship (master/slave) when reconnected.
04. Once TWS is connected, the slave speaker's LED will be ON and the master speaker's LED indicates the status of play, pause, Bluetooth connection, etc.

05. When TWS is connected the function are the same on each MINI 2 speaker

(synchronous functions).
06.Upon powering ON both MINI 2 speaker at same time, if the LED is solid on one and other is blinking, the speakers are in TWS mode.

07 Technical Specifications

Basic	
Туре	Bluetooth Speaker
Micro SD card	Supports up to 32G
Power Supply	Built-in 2000mAh Li-ion battery
	DC5V/1A Type-C charging cable
Technical	
Trumpet	52MM trumpet with X-bass radiator
Output	7.5W THD=10%
Frequency Response	100Hz-18KHz
BT verion	Bluetooth 5.0
Music files	MP3.WMA.WAV.APE.FLAC MP3:8Kbps-320Kbps WMA:32Kbps-384Kbps
	WAV:32Kbps-1414Kbps

Product Size:118×90×90mm

Product weight: 437g (included Lithium battery)

Questions	Solutions
Cannot connect	1. Restart the speaker
	2. If Passcode is required, enter 0000
Discontinuity	Ensure there is no more than 10M (30") between the device and speaker Ensure there are no barriers between the device and speaker
	1. The Micro SD should be formatted as FAT32
Micro SD cannot play	2. The formats of music files should be WAV, MP3, WMA
No sound when playing	1. Check the volume levels & adjust
	2. Check if paused or muted
Cannot power on	1. Check for low battery
No response	1. Reset the speaker (hold power button for 8 - 10 seconds)

FCC Caution.

(1)§ 15.19 Labelling requirements.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

§ 15.21 Changes or modification warning

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

§ 15.105 Information to the user.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- -Reorient or relocate the receiving antenna.
- -Increase the separation between the equipment and receiver.
- -Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- -Consult the dealer or an experienced radio/TV technician for help.
