### How to use ZealSound k8 karaoke Microphone?

#### On/Off button:

Long press the power button to turn the power on, accompanied with a prompt tone"Power on", and the blue light blinks. If no TF card inserted into the microphone, the device will enter into Bluetooth mode automatically. The microphone is ready for pairing.

#### Bluetooth connection:

Open Bluetooth on your device, and then you will find "k8" on your Bluetooth list.  
Select and connect. There will be a prompt tone (Bluetooth connected successfully). Pairing may takes several seconds.

Warm Tip: if Bluetooth can't connect:

- a. Please restart the microphone
- b. Move the phone closer.
- c. Avoid any obstacles.
- d. Check if any other device is pairing with k8. If yes, please unpair previous device.

#### TF Playing:

When the TF card is inserted, the microphone will play TF card

music automatically.  
Only MP3 and WAV audio files are available.

### Music Recording:

1. Wireless connect:  
You can record your voice on Bluetooth Mode via App on your phones.
2. Wired connect:

Please use the 3.5mm audio cable connect with mobile phone and k8 mic. If your Phone is the Lightning or Type -C ear jack, please use an adapter cable. (not include)  
As the following connect indications:

### How to Charge it?

Use the included micro USB cable to connect ZealSound k8 to a computer or adapter. The charging indicator will be on red during charging, and will shut off when fully charged. It takes about 3

hours to fully charge .

### Warning:

Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

### NOTE:

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

### NOTE:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:  
—Reorient or relocate the receiving antenna.  
—Increase the separation between the equipment and receiver.  
—Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.  
—Consult the dealer or an experienced radio/TV technician for help.
