

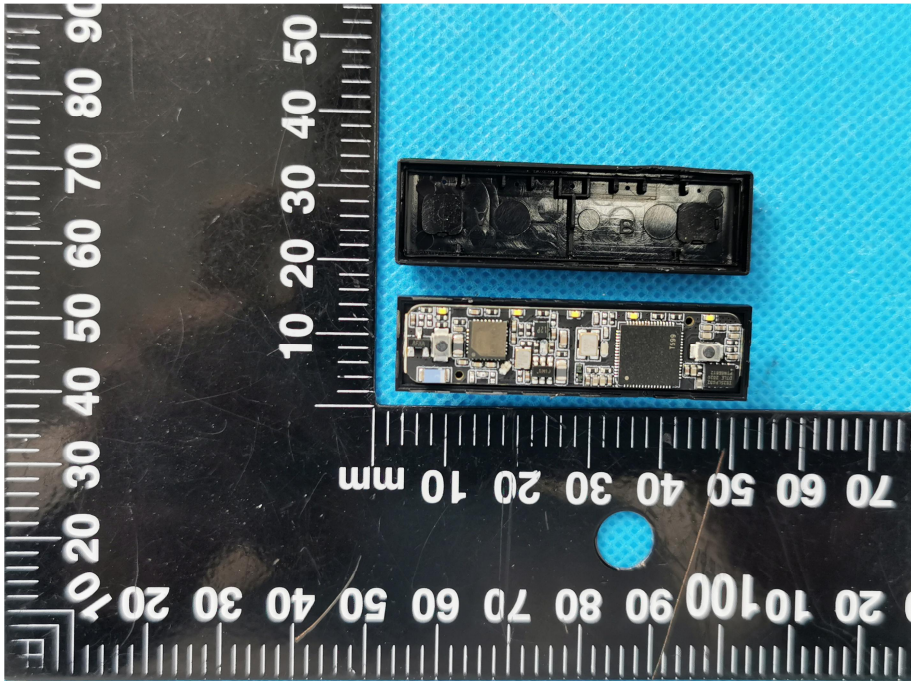

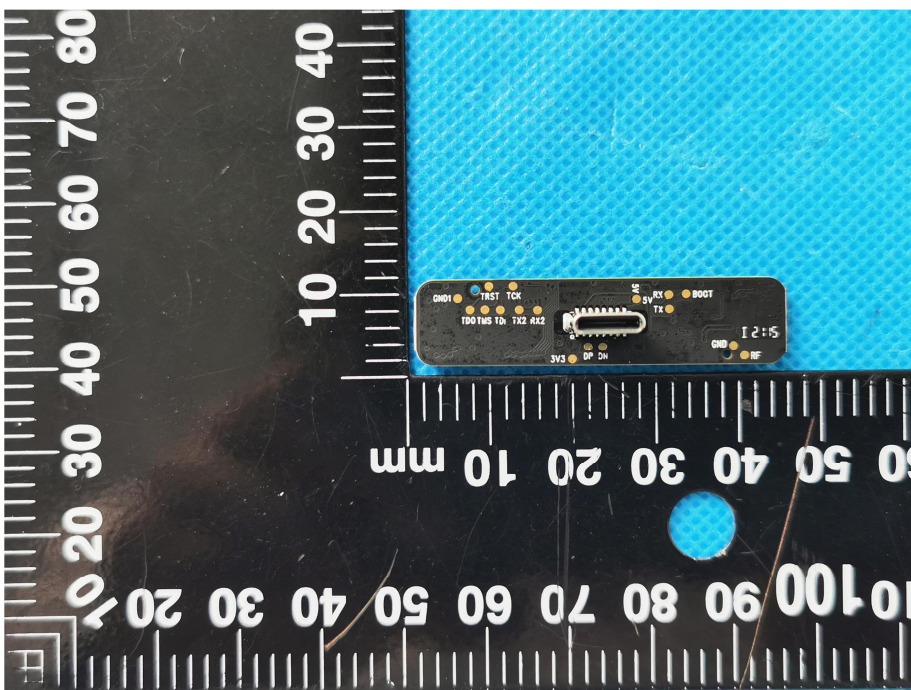

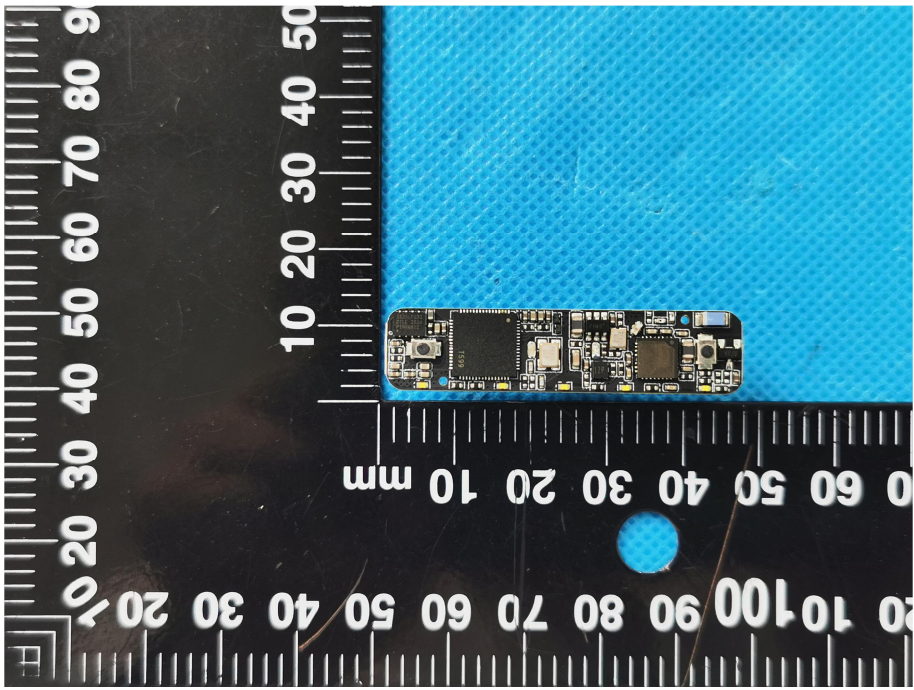

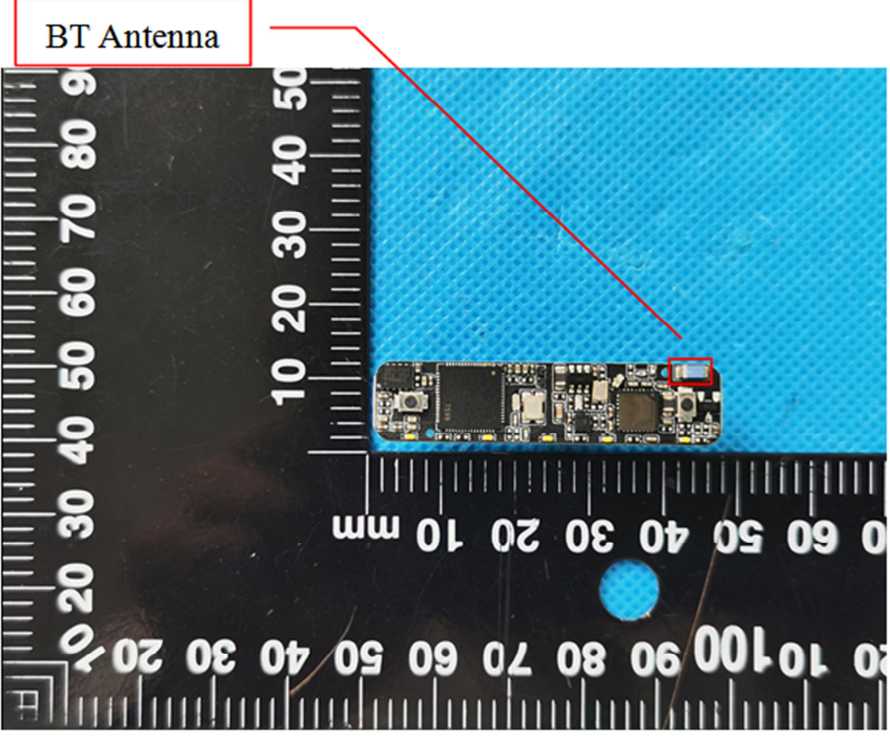

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

<p>EUT Housing and Board View 1</p>	 A photograph showing the internal components of an EUT. At the top is a black plastic housing with two circular openings. Below it is a printed circuit board (PCB) populated with various electronic components. A black ruler with white markings is placed vertically on the left and horizontally at the bottom for scale. The background is a blue textured surface.
<p>Solder Board-Component View 1</p>	 A close-up photograph of a component on a PCB, likely a solder bridge or a specific component. The component is rectangular with several small circular pads and a central slot. Labels such as "GND1", "TRST", "TCK", "3V3", "DP", "DN", "GND", and "RF" are visible. A black ruler with white markings is placed vertically on the left and horizontally at the bottom for scale. The background is a blue textured surface.

<p style="text-align: center;">Solder Board-Component View 2</p>	 <p>A photograph of a small electronic board component, likely a BT antenna, placed on a blue textured surface. The component is positioned between two black rulers with white markings. The ruler on the left shows markings from 0 to 90, and the ruler on the bottom shows markings from 0 to 100. The component is approximately 40mm long and 10mm wide.</p>
<p style="text-align: center;">Antenna View</p>	 <p>A photograph of the same electronic board component as in the previous view, placed on a blue textured surface. A red box highlights a small component on the board, labeled "BT Antenna". A red line points from the label to the highlighted component. The component is approximately 40mm long and 10mm wide. The rulers are the same as in the previous view.</p>
