Class II permissive change request letter

Manufacturer: Bosch GmbH – eBike Systems

Model: BRC3600

FCC ID: 2AWRC-BRC3600

We, **Bosch GmbH – eBike Systems**, pursuant FCC §2.1043, hereby request the evaluation of a Class II permissive change as described below for BRC3600.

The changes made to the currently certified model are hardware related and do not degrade the characteristics currently reported and accepted.

No changes to transmit power output, emissions, modulation or frequency have been made.

The main changes introduced in the device:

- *The original Epson 16 MHz Bluetooth radio crystal oscillator have three alternative suppliers; NDK, SJK and KDS. Alternative components are electrically equal compared with original crystal oscillator.*
- *The original Epson 32 kHz CPU crystal oscillator have one alternative supplier NDK. Alternative component is electrically equal compared with original crystal oscillator and can be used in any combinations of 16 MHz Bluetooth crystal oscillators.*

Radio transmitter output power, emissions, modulation and frequency have tested to following the general rate of the certified model.

Yours sincerely,
