3 Press **INPUT** on the SoundBar or remote control repeatedly until the **Optical** icon appears.

**Connection 2: Optical**

1 Press **LINK** and **OPT** on the **COAXIAL** port into your TV's **COAXIAL**.

2 Insert the other end of the cable into the **COAXIAL** port on the Sound Bar.

3 Press **INPUT** on the SoundBar or remote control repeatedly until the **COAXIAL** icon appears.

TV

Sound bar

Coaxial

Optical

**Connection 3: HDMI ARC**

1. Insert one end of the **HDMI cable** into your TV's **HDMI ARC** port.

**NOTE:** If you don't see an HDMI ARC port on your TV's HDMI ARC or Audio Return Channel port, you need to find another port. The **SoundBar** (port 3) on your TV can't use an **HDMI ARC** port, connect the **SoundBar** using the **optical cable** (port 4).

2. Insert the other end of the **HDMI cable** into the **HDMI port** on the **Sound Bar**.

If **HDMI connection** is detected, the **receiver** will automatically switch to **HDMI ARC**.

3. Using **port 4** on the **Sound Bar**, an optical cord (supplied) to connect to the **HDMI ARC** port.

**TIP:** Using your TV's **HDMI ARC** or **Audio Return Channel** port and you can use your TV remote to control the power, volume, and most functions of the **Sound Bar**.

**Connection 5: Bluetooth**

When you have a Bluetooth device such as a smartphone or digital music player, you can connect the Sound Bar and the Bluetooth device with the Bluetooth function.

**Bluetooth device for the first time**

BT on the Board Kit or remote control to switch the input device **ON**.

your device is pairing into the firmware of your Board Kit when they are in pairing mode.

on the Bluetooth settings in your **Android** device.

A **WIDCOMM** from the **Kit of Devices** displayed on the screen of the Board Kit.

your device **stop listening and this device and the Bluetooth** is **paired**.

**with other Bluetooth devices**

BT on the Board Kit or remote control to switch the input device **ON**.

on the **WIDCOMM** settings in your **Android** device.

on the **Bluetooth** from the **Kit of Devices** displayed on the screen of the Board Kit.

**Connection 6: AUX IN**

1. Insert one end of the **AUX** cable into the audio output/earphone jack on your TV, MP3 player or other audio device.
2. Insert the other end of the **AUX** into the **AUX IN** port on the Sound Bar.
3. Press **W/ST** on the Sound Bar or remote control repeatedly to **SW** to the **AUX IN** mode. **Done**

**SAFETY INFORMATION**

### Important Safety Instructions

- ⚠ Read these instructions.
- ⚠ Keep these instructions.
- ⚠ Read all warnings.
- ⚠ Follow all instructions.
- ⚠ Do not use the apparatus near water.
- ⚠ Do not use with a tripod.
- ⚠ Do not touch any metal bottom springs. ⚠ Use in accordance with the manufacturer's instructions.

[illegible]

## Warning

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Changes in modifications not expressly approved by the party responsible for compliance may void the user's authority to operate the equipment.

**FCC:** This equipment has been tested and found to comply with the following: Part 15 of the FCC Rules, Subpart B of the FCC Rules. This equipment complies with FCC Rules for Class B digital devices. The following information is for users of this equipment who are responsible for compliance with FCC Rules: This equipment generates, uses and can radiate radio frequency energy. If not installed and used properly, it may cause interference to radio communications. It may also be affected by such interference from other devices. If you experience interference, you should consult the dealer or an experienced radio/television technician for help.

Interference can be decreased by turning the equipment off and on, or the user is encouraged to try to correct the interference by one of the following steps:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Plug the equipment into a different outlet that is not on the same branch circuit.
- Consult the dealer or an experienced radio/television technician for help.

Accessories may be purchased with PG2's RP Express guide lines. The equipment must be installed and operated with minimum 20000 hours of service. This warranty is void if the equipment is not installed, operated or maintained in accordance with the manufacturer's instructions. This warranty is void if the equipment is not installed, operated or maintained in accordance with the manufacturer's instructions. This warranty is void if the equipment is not installed, operated or maintained in accordance with the manufacturer's instructions.
