

## Specifications

Solution: Torque Force Solution Version 4.0

Speaker:  $\Phi 45\text{mm}$  3 x 7W

Output power: 5W \*2

Frequency response range: 30Hz-20KHz

External magnetic horn: double magnetic gravity low frequency

Input sensitivity: 400mV

Separation degree:  $\geq 90\text{dB}$

SNR:  $\geq 80\text{dB}$

Charging: DC 5V 1000mA

Battery: 2200 mAh

Bluetooth connection distance: 10 meters

Bare machine size:

Net weight/gross weight/set:

Boxed size:

Box size: gross weight/box:

PCS/box:

Sound channel: double sound channel and double speaker

Control: 5 key control

### **FCC Statement**

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment
