OPENED BOX:

FEATURES:

To get started, use the USB cable provided to plug in your sterilizer box and power on.

Wireless Charging:

The box is equipped to wirelessly charge phones that have a wireless charging functionality. The blue light will turn on to indicate that charging is in progress.

Sterilizing:

The box is equipped to disinfect items as long as 7". See below for examples of size-appropriate items:

- Cellphone
- Earbuds
- Nail Clippers
- Makeup Tools
- Jewelry
- Watches
- Razors
- Comb

Aromatherapy:

The box is equipped with a bonus aromatherapy feature. Simply add two drops of your favorite perfume to the designated area to enjoy the full effect.

STERILIZATION PROCESS:

The box offers two levels of sterilization.

3-minute sterilization:

To activate the 3-minute sterilization process, press the Sterilizing button one time. You will hear a beep and a red light will turn on to indicate that the 3-minute time period has begun. You will hear 2 beeps when the sterilization process is complete.

6-minute sterilization:

To activate the 6-minute sterilization process, press the Sterilizing button two times. You will hear a beep and a green light will turn on to indicate that the 6-minute time period has begun. You will hear 2 beeps when the sterilization process is complete.

Press the Sterilizing button three times to turn off the function.

Please note:

The sterilization function will turn off when the lid is opened. You must close the lid and press the Sterilizing button again to start the sterilization process. When the wireless charging and sterilizing functions are not working, the Blue-light indicator will flash three times when powering on.

FCC WARNING

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

To maintain compliance with FCC's RF Exposure guidelines, This equipment should be installed and operated with minimum distance between 20cm the radiator your body: Use only the supplied antenna. FCC ID: 2AWXP-DF02

Warning: Changes or modifications to this unit not expressly approved by the part responsible for compliance could void the user's authority to operate the equipment.
