Packages list

10000mAh power bank—1pcs
Charging Cable—1set
Using instruction—1pcs

Important safety instructions

Before using the power bank, please read the following the rules carefully and conscientiously abide.

1. When using power bank first time or using after long-term storage, the power bank may have been gradually automatically discharge, so the power bank can achieve the best performance after generally 5-6 complete charge and discharge.
2. The power bank should be charged in the ventilation position, high or low temperature impact on battery's performance.
3. Don't put this product into the water, moisture or drench.
4. Don't throw, beat strongly or shake this product, otherwise it may damage the internal precision parts and the whole structure.
5. Don't move the power machine close to the fire or other sources of heat, in order to avoid danger.
6. Keep the metals away from the power bank's charging and discharging port, otherwise it will cause short circuit, damage to the host

POWER BANK

Model: GX-PBWC-10

10000mAh Power Bank Manual

Class design level, sophisticated R & D team, to unremitting efforts for creating the more convenient, more fashion, more safety and more practical's power bank

Product introduction

GX-PBWC-10 power bank has first-class design level and technical level high-quality power bank, compatible with 95% mainstream digital products in the market. It has high capacity, fast charging, high conversion rate and safety performance. Precision LED indicator can know the remaining electricity and the slim size makes it bring easily.

Product parameters

Battery Cell	Lithium-ion
Capacity	10000mAh 38.5Wh
Type-C Input	5V/3A, 9V/2A, 12V/1.5A
Type-C Output	5V/3A, 9V/2.22A, 12V/1.67A
USB-A Output	5V/4.5A(SCP), 4.5V/5A(SCP) 5V/3A, 9V/2A, 12V/1.5A
Wireless Output	15W Max
Storage temp	-10℃-50℃
Size	111.9*69.4*17.4mm
Weight	185g

Using Instruction

Please charge the power bank lay on the socket instead of hanging on the wall power socket, in order to stop the power bank fall off the floor.

Remind: Don't using the power bank charge the mobile phone in the bag or pocket, which will cause the power bank and mobile phone hot and reduce their using life, suggest flat charge in the ventilation or air conditioning environment.

FCC Requirement

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) this device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy, and if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
