Charging Case Light Indicators

Charging case battery level:
More than 70%: Green
Between 31% -70%: Orange
Between 11% - 30%: Red
Less than 10%: Flashing Red

While the case is being charged, the light will blink in its respective colour. Once it is fully charged, it will stop blinking.

Earbuds Battery Level Indication

Earbuds battery level:
A low battery tone will sound when the battery level low.

Status in charging case:
Charging: Breathing white light
Fully charged: Light off

Charging the case

- 1) Connect the USB-C cable to the port at the back of the charging case.
- 2) The casing and earbuds can be charged simultaneously.

Works with Qi-certified wireless charger.

Storing the accessories

The casing is able to slide in both directions. To store your accessories, slide the casing downwards and slot the accessories into the compartment. Ensure that the accessories sit nicely inside the case. If it sticks out, it will affect the closing of the case.

Technical Specifications

Driver diameter: 8.0mm
Frequency response: 20-20kHz
Sensitivity: 103 dB (at 1kHz)
Impedance: 32 ohms
Battery (Earbud L/R): 3.7V, 60mAh
Battery (Charging Case): 3.7V, 750mAh
Battery life (Earbud): up to 8 hours
Battery life (with Charging Case): up to 48 hours
Weight of Earbud: about 8.5g (L), about 8.5g (R)
Weight of Charging case: about 60g
Operating temperature: 0-70 degrees
Microphone Sensitivity: -42dB
Microphone Frequency Response: 100Hz - 10kHz
Operating Frequency: 2402 - 2480MHz
RF Output Power: <3.25dBm
Bluetooth Version: 5.2
Operating Range: up to 10 meters
USB cable for charging: USB Type A – USB Type C
Eartips: S, M, L, S+, M+, L+

FCC Caution (FCC ID: 2AX2J-PBEVR)

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

*RF warning for Portable device:

The device has been evaluated to meet general RF exposure requirement.
The device can be used in portable exposure condition without restriction.
