Note: When BT transmitting devices cannot be connected, please delete the rest of BT receiving devices' names on the list. Re-activate, re-searching, and re-pairing.

Troubleshooting:

- 1.) The phone call could interfere with high-frequency electromagnetism. People should try not to use this product in a high-frequency environment.
- 2.) Bluetooth is a bidirectional transmitting protocol; transmitting distance is highly related to the audio player. Compatible BT players are recommended.
- 3.) Some terminal players are without automatically switching play functions. In this case, POP noise will exist in the interval of every 2 songs.
- 4.) The sound performance could also be affected when BT transmitting devices are in a poor signal environment, or under low battery capacity.

Parameter:

Material: ABS body + Metal

Output power: 10W*1 + 1*Passive Radiator

Input power: DC5V/500mA

Battery Li-ion: 1200mah

Frequency Response: 100hz-20KHZ

Dimension: 145*102*170mm

Function: Bluetooth/FM radio/TF card/Hand-free/RGB/TWS function

Bluetooth version: 5.3

5. Built-in battery, do not throw the speaker in the fire.

FCC Statement

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment.
