About QP-1020MB

Package Contents

QP-1020MB
Power bank x1

User guide x1

Appearance

- 1 Foldable AC plug
- 2 Magnetic Wireless Output
iPhone:5W,7.5W
Android:10W,15W
- 3 Wireless Output Indicator
Blue for charging
Red for standby
- 4 Dual Way USB Type-C
Input 18W & Output PD 20W
- 5 USB-A Output
QC3.0 18W
- 6 Digital Power Display
The green lightning symbol means fast charging
- 7 Power Button
Click to show battery
Double click to turn off power

Specification

As an Adapter

Input	AC 100-240V,50/60Hz,0.5A
Output1(USB-A)	5.0V=3.0A(Max)
Output2(USB-C)	5.0V=3.0A(Max)
Output3(Wireless Output)	5.0W(Max)
Total Output	15.0W

As a Power Bank

Capacity	10000mAh(37.0Wh)
Input(USB-C)	5.0V=3.0A, 9.0V=2.0A
Output1(USB-C)	5.0V=3.0A, 9.0V=2.22A, 12.0V=1.5A(Max)
Output2(USB-A)	5.0V=3.0A, 9.0V=2.0A, 12.0V=1.5A(Max)
Output3(Wireless Output)	15.0W(Max)
Total Output	20.0W(Max)
Weight	259g
Size	82x80x29mm

How to Use

Use power bank to charge other devices

Connect a charging cable and charge your mobile device directly. Press the power button and QP-1020MB starts to charge your devices.

Charge devices through the adapter

Put the plug into the socket and connect a charging cable with your device. The QP-1020MB will begin charging for your device.

Charge through the wireless charging function

Put the wireless device on the QP-1020MB, and push the power button. The QP-1020MB will begin charging for your device.

- For any defect, in the judgement of our technician, caused under normal use, we are responsible for repairing for free of charges 12 months commencing from the date of purchase at the discretion of our company.

Safety Warning

- Do not expose this product to high-temperature environments or around heat-generating equipment, such as automobiles, sun exposure, heaters, microwave ovens, ovens and other high-temperature environments, as it may cause an explosion.
- It is strictly forbidden to use unapproved or incompatible power chargers, charging cables, etc., which may cause fire, explosion or other dangers.
- Do not place this product in a non-ventilated space for a long time, such as handbags, etc. The confined space may cause fire and other dangers.
- This product contains lithium-ion batteries. It is strictly forbidden to disassemble the casing of this product without permission, so as to avoid the damage of the batteries and cause a fire hazard.
- Avoid falling, squeezing, puncture injury, short-circuiting this product, or throwing it into water or fire to avoid fire and other dangers.
- Please dispose of this product in accordance with local regulations. Do not dispose of this product as general household waste. Improper disposal may result in an explosion.
- Do not use this product during thunderstorms to avoid product failure or risk of electric shock.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio / TV technician for help. The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.

Note:The magnet is only for adjusting the charging position
