RE: Short-Term Confidentiality Request for Multifunctional IoT platform sensor, FBO-2004 with FCC ID# 2AXA8-FBO-2004

To Whom It May Concern:

In accordance with §§ 0.457(d) and 0.459 of CFR 47, **Trackonomy** requests short-term Confidentiality of following sections of this application for a period of 180 days after grant is issued:

External photos, Test setup photos required to be submitted with this application be withheld from public review.

We would like the Short-Term Confidentiality (STC) period of 180 days (max).

These documents contain detailed system and equipment descriptions and related information about the product, which **Trackonomy** considers to be proprietary, confidential, and a custom design and otherwise, would not be released to the general public. Since this design is a basis from which current and future technological products will evolve, **Trackonomy** feels that this information would be of benefit to its competitors, and that the disclosure of the information in these documents would give our competitors an unfair advantage in the market.

Please contact me if there is any information you may need.

Sincerely,

Dr. Saurabh Sanghai
Director of Engineering
