

Dear Sir or Madam:

The application for FCC ID: 2AXAK - 100006 will cover the Ascent Hub Component.

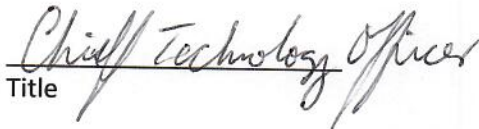

The Hub is a small, reusable, battery powered hardware and firmware-containing component including an electrical interface for coupling to body adhesive component, and hardware to record, store, and transmit the electrocardiogram from the subject during use. The Hub is composed of a lithium-ion polymer battery, circuitry to obtain and digitize an electrocardiogram, firmware, dual processors to organize the digitized signals, and coordinate transmitting the signals over a Bluetooth Low Energy (LE) 5.1 wireless protocol to the accessory Gateway device..

Sincerely,

Name

  
Randy Totz

Title

  
Chief Technology Officer

Company Name

  
LifeLens Technologies Inc.
