REGULATORY AND COMPLIANCE INFORMATION

FCC Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC Radiation Exposure

This device complies with FCC radiation exposure limits set forth for an uncontrolled environment and it also complies with Part 15 of the FCC RF Rules. This equipment must not be co-located or operating in conjunction with any other antenna or transmitter. End-users and installers must be provided with antenna installation instructions and consider removing the no-application statement. This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- This device may not cause harmful interference, and
- This device must accept any interference received, including interference that may cause undesired operation.

Caution

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

STATEMENT OF COMPLIANCE WITH EU DIRECTIVE

Zhuohi Xuedian Technology Co., Ltd. declares that the radio equipment type DURGOD DKG710 Wireless Mechanical Keyboard and Infinita Wireless Receiver are in compliance with Directive 2014/53/EU. The full text of the EU declaration of conformity is available at the following internet address: <http://www.durgod.com>

Caution

- Risk of fire or explosion or defeat the safeguard of equipment if the battery is replaced by an incorrect type. Replace only with the same or equivalent type.
- Disposal of a battery into fire or a hot oven, or mechanically crushing or cutting of a battery, th at can result in an explosion.
- High or low extreme temperatures or low air pressure at high altitude that the battery can be subjected during use, storage or transportation.
- Leaving the battery in an extremely high temperature and/or low air pressure surrounding env ironment that can result in an explosion or the leakage of flammable liquid or gas.

Canada Statement

This device contains licence-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada's licence-exempt RSSI. Operation is subject to the following two conditions:

- This device may not cause interference.
- This device must accept any interference, including interference that may cause undesired operation of the device.

L'équipement contient de licence-exempt transmetteur(s)/récepteur(s) qui sont conformes aux CNEB d'Innovation, Sciences et Développement Économique Canada applicables aux appareils radio exempts de licence. L'exploitation est assujettie aux deux conditions suivantes:

- L'appareil ne doit pas produire de brouillage.
- L'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

The device meets the exemption from the routine evaluation limits in section 2.5 of RSS 302 and compliance with RSS-302 RF exposure, users can obtain Canadian information on RF exposure and compliance. Le dispositif répond aux exemptions des limites courantes d'évaluation dans la section 2.5 de RSS 302 et la conformité des limites d'exposition aux ondes radioélectriques. Les utilisateurs peuvent obtenir l'information canadienne sur l'exposition et la conformité de RF.
