

ID Letter (Model difference)

FCC ID: 2AXCW-AP6700

Model: AR1344P, EVO6700AP, AR1344, AR1344E

AR1344P, EVO6700AP, AR1344, AR1344E has the same technical construction including circuit diagram, PCB Layout, components and component layout, all electrical construction and mechanical. The difference only the model name and Memory size. The difference does not affect RF function.

Model Difference in Model Name as Below	
AR1344P, EVO6700AP	AR1344, AR1344E
258MB/512MB (FLASH MEMORY / SDRAM)	128MB/256MB (FLASH MEMORY / SDRAM)
There are no differences in RF performance and characteristics between all models.	

Name : Kyu Sang Ryu
Title : Manager
Company Name : Kaonbroadband CO., LTD.
