FCC Statement

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
-Reorient or relocate the receiving antenna.
-Increase the separation between the equipment and receiver.
-Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
-Consult the dealer or an experienced radio/TV technician for help.
The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.

Product Cleaning

1. During ear picking, ear scraps will fly to the surface of camera lens and affect viewing effect. The user can blow or use a cotton swab to remove them.
2. Do not put the product in water for cleaning.

Environmental Protection

When the intelligent visual ear pick reaches the end of service life, the internal battery may be required to be removed and recycled and disposed in a proper manner according to the laws and regulations of the country or region. If the user cannot remove the battery, please deliver the product to the recycling center designated by government.

Product Parameters

Type	Detailed information
Product Name	Intelligent Visual Ear Pick
Product Model	Han Style P30
Operating Frequency	WIFI 2.4GHZ
Image Transmission Rate	25-30fps
Gyroscope	5 axle
Pixelt	4 million
Battery	3.7V 300mAh
Duration of Continuous Use	Approx. 65 min
Charging Time	Approx. 1h
Input	5V = 0.4A
Power	0.5W
Lens Diameter	3.6mm
Network Standard	IEEE 802.11b/g/n

Name and Content of Harmful Substances in the Product

Harmful Substances

Part Name	Harmful Substance					
	Pb	Hg	Cd	Cr(VI)	PBB	PBDE
Ear pick head	○	○	○	○	○	○
Shell hardware	○	○	○	○	○	○
Battery	○	○	○	○	○	○
Charging cable	○	○	○	○	○	○

This table is compiled in accordance with SJ/T 11364
○: Indicates that the content of hazardous substances in all homogeneous materials of this part is below the limit requirement as specified in GB/T26572-2011
X: Indicates that the content of hazardous substances contained in at least one of the homogeneous materials of the part exceeds the limit requirement as specified in GB/T26572-2011

Use Tips

- Q 1: It always prompts "Enjoy-xxxx can't connect the internet, whether it is allowed to switch to available network" when the phone is connected to the product. What is the situation, and can it be switched?
A: Enjoy-xxxx WIFI is specifically used to connect to mobile phone without internet access function. When this prompt appears, select "Not allowed". If you select "Allow", the phone will cut off the connection with the product and then connect to WIFI network of your home. The product can no longer be used when it is disconnected from mobile.
- Q 2: How to install and remove ear pick correctly?
A: There are two types of ear pick head specifications, large and small, available for selection according to specific needs. The ear pick and the main unit adopt threaded fixed structure. When installing, align the thread position of the ear pick with the thread position of the main unit lens and rotate clockwise. Note: Start ear picking after confirming that the ear pick heads fix tightly.
- Q 3: Will it give prompts when the battery is low? How to prompt?
A: The product light ring flashes fast.
- Q 4: What is the status during charging?
A: When the product is plugged into charging cable for charging, the product light ring will light steady green, and the light ring is off when fully charged.
- Q 5: The WIFI settings page of iPhone shows that it has been connected successfully, but the app page has no connection information. What's the reason?
A: If you open the xiao-E APP on Apple mobile phone IOS version 14 or higher, the following dialog box will pop up. Click OK to use it normally. If you click "Don't Allow", the APP will not work normally. You need to uninstall and reinstall it.

Troubleshooting

Fault Phenomenon	Fault Causes	Solution
The machine does not start when opening the cover	The battery is too low	Charge the visual ear pick
	Charging	Unplug the charging cable
Crash	Interfered	Restart the visual ear pick
	Program compatibility problem	Uninstall APP and reinstall
There is a shadow on the image	Ear scraps are falling on the lens	Blow air and use a cotton swab to clean the lens
Stuttering	System cache occupation too much	Clean up the system cache, clean up E-Enjoy cache and restart

Recharge Regularly

1. The indicator light flashes fast, which indicates low battery. Please charge in time. The indicator light will light steady green when charging, and the light will be off when the battery is fully charged. It will take about 1 hour to fully charge.
2. Please charge the ear pick regularly in case of no use for a long time.

Attention

The original charging cable is the exclusive charging cable for E-Enjoy, which does not support fast charging for other devices and does not support data transmission.
