Step 2 :

Download the Link My Pet app

Visit the Apple App Store or Google Play Store to download the Link My pet App or use the camera on your phone to scan the QR code below.

Open the Link My Pet app and follow the prompts to choose your subscription and set up your pet's Link profile.

Why does the Link require a subscription?

The subscription plan is necessary for the Link device to connect to the cellular network to link your pet and send notifications to your mobile device.

Step 3 :

Attach me to your favorite collar

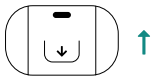

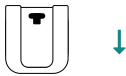

Select the attachment option, either the clip or elastic, that best fits your pet's collar.

Slide the front of the clip or elastic attachment into the back of the Link device.
