Safety Instruction

Using earphones at high to moderate volumes for extended periods of time will result in permanent hearing damage. It is advised that you keep volume levels moderate to low at all times for your safety.

Do not use while driving, cycling, operating machinery or performing other activities that require hearing surrounding sounds.

Do not use earphones in thunderstorm weather, the earphones may not work properly in the bad weather condition, and may increase the risk of being hit by lightning.

Earphones may not work properly under high temperature or high humidity conditions.

Do not use any corrosive cleaner/oil to clean the earphones. If the earphones come in contact with liquids, quickly wipe away. If submersed in the water, do not turn the earphones on until it is completely dried.

Tips: Man-made damage and lost are not covered under warranty. Keep the earphones and the packaging out of reach of children.

FCC Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference
- (2) this device must accept any interference received, including interference that may cause undesired operation

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
