Meet Your Temperature and Humidity Sensor

Measure the temperature and humidity of the environment and send you instant notifications when the environment changes. It is suitable for green houses, bedrooms, nursery, incubators, and wine cellars.

! Before You Start

A Tapo Hub is required. Make sure your Tapo Hub is successfully added via the Tapo app.

1 Power Up Your Sensor

Remove the battery insulation tab to power up your sensor. The LED should blink.

Note: If the LED is not blinking, use a pin to press the Reset button for 5 seconds to reset your sensor and enter pairing mode.

2 Set Up Your Sensor

Open the Tapo app and tap the ⊕ button. Select **Sensors** and then your model. Follow the app instructions to complete setup.

3 Test Your Sensor

Take your sensor to the preferred location.

Option 1

Single press the Reset button. Your hub should make a voice prompt.

Option 2

Blow on the sensor detector. The temperature and humidity displayed on the Tapo app should change.

4 Place Your Sensor (The installation height should not be higher than 2 meters.)

Option 1: Hang with the Lanyard

Option 2: Use Adhesive Magnets

a. Stick the included adhesive magnets to the back panel.

b. Magnetically attach the sensor to metallic surfaces.

Metallic Surface

Option 3: Use 3M Adhesives

a. Stick the included 3M adhesives to the back panel.

b. Stick the sensor to your preferred location.

? How to replace the battery

1. Use a pin to press and remove the cover.
2. Replace the battery with a fresh cell.
3. Put the cover back.

FCC compliance information statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/ TV technician for help.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

- 1) This device may not cause harmful interference.
- 2) This device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: The manufacturer is not responsible for any radio or TV interference caused by unauthorized modifications to this equipment. Such modifications could void the user's authority to operate the equipment.

FCC RF Radiation Exposure Statement:

This equipment complies with FCC RF radiation exposure limits set forth for an uncontrolled environment. This device and its antenna must not be co-located or operating in conjunction with any other antenna or transmitter.

"To comply with FCC RF exposure compliance requirements, this grant is applicable to only Mobile Configurations. The antennas used for this transmitter must be installed to provide a separation distance of at least 20 cm from all persons and must not be co-located or operating in conjunction with any other antenna or transmitter."

We, TP-Link USA Corporation, has determined that the equipment shown as above has been shown to comply with the applicable technical standards, FCC part 15. There is no unauthorized change is made in the equipment and the equipment is properly maintained and operated.
