

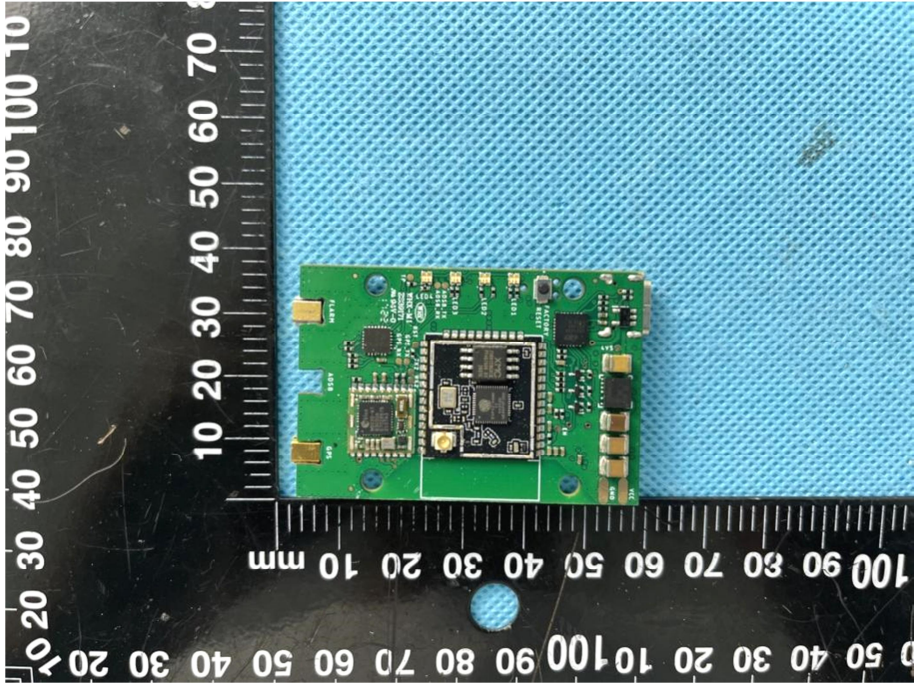

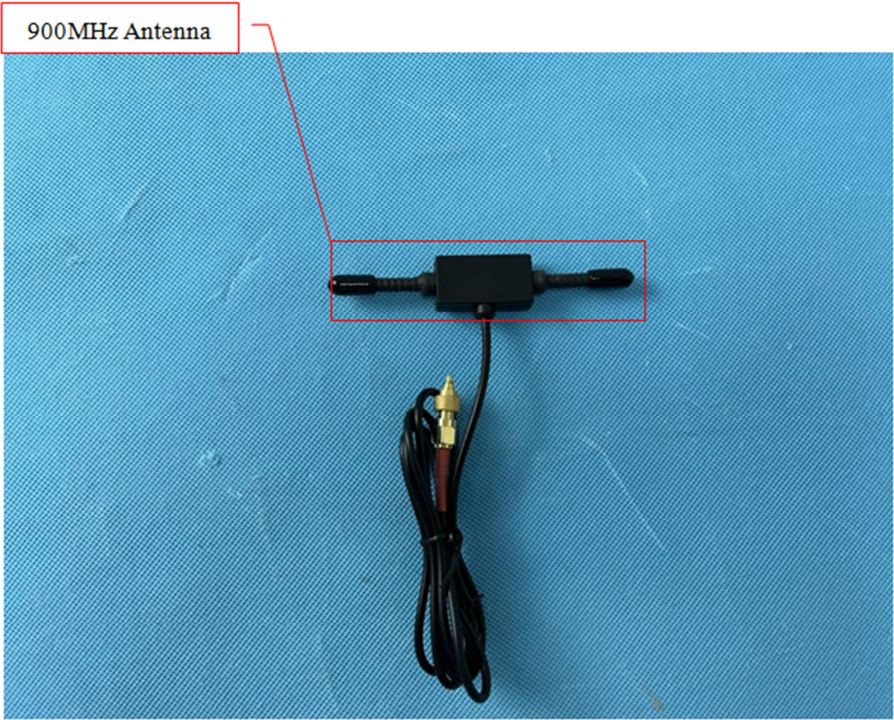

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

Solder Board-Component View 1	 A photograph of a green printed circuit board (PCB) component, likely a radio module, placed on a blue textured surface. A black ruler with white markings is positioned vertically to the left of the component, showing measurements in millimeters. The component features various electronic components, including a large central chip, smaller surface-mount components, and gold-plated pins along the edges.
Antenna View	 A photograph of a 900MHz antenna assembly on a blue textured surface. A red rectangular box highlights the antenna's base, which is a black rectangular component with two horizontal pins. A red line points from a label "900MHz Antenna" to this box. A black cable is connected to the bottom of the antenna base, ending in a gold-plated SMA connector.
