

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

Solder Board-Component View 1	 A photograph of a green printed circuit board (PCB) component, likely a radio module, resting on a blue textured surface. A black ruler with white markings is placed vertically to the left of the component, showing measurements in millimeters. The component features several gold-plated SMA connectors on the left side, a central integrated circuit (IC) with 'FLARM' branding, and various other electronic components like capacitors and resistors. A USB connector is visible on the right side of the board.
Antenna View	 A close-up photograph of the antenna component. A red rectangular box highlights the antenna structure, which is a small green PCB with a gold-plated SMA connector. A red line points from a label '900MHz Antenna' to this box. The antenna is connected to a black cable. The background is a blue textured surface.
