

The diagram shows a vertical rectangular container with a central label area. The container has a top and bottom flange. On each side, there is a protruding section with a rounded top and a central oval-shaped cutout, resembling a handle or a grip. The central area is defined by two vertical lines. A red rectangular border is drawn within this central area, indicating the specific location for a label. The text "Label Location" is centered within this red border.

**Label Location**
