Cleaning and maintenance

1. Before cleaning, be sure to cut off the power and unplug the power plug
2. In order to avoid discoloration, thinner, toluene, acid detergent, kerosene,

alcohol, and do not use chemical rags to wipe them.

3. When not in use for a long time, please clean the body, put it in the original packing box after drying, and keep it in a place without moisture. When drying is insufficient, corrosion or failure will lead to rust
4. When cleaning the water in the lower part, take the upper part away
5. When cleaning the atomizing tablet, please wipe it gently with a brush or cotton swab
6. Please use the tablets within 2 weeks after adding them

FCC ID: 2AXMKJG-PL5000

FCC Caution:

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment.
