

## QUICK START GUIDE

### Buttons:

- 1 Left button
- 2 Right button
- 3 Middle button
- 4 Forward button
- 5 Back button
- 6 DPI button

### DPI Level:

- 400 (yellow)
- 800 (blue)
- 1600 (red - default)
- 3200 (green)

No.	9 Lighting Effects (middle + DPI + forward)	Brightness (middle + DPI + right buttons)	Speed (middle + DPI + back buttons)	Color Switch (middle + DPI + left buttons)
1	Glorious Mode	4 Levels	3 Levels	.
2	Seamless Breathing (RGB)	4 Levels	3 Levels	.
3	Breathing (RGB)	4 Levels	3 Levels	.
4	Single Color	4 Levels	.	7 Colors
5	Breathing (Single Color)	4 Levels	3 Levels	.
6	Tail	4 Levels	3 Levels	.
7	Wave	4 Levels	3 Levels	.
8	Wave	4 Levels	3 Levels	.
9	LED OFF	.	.	.

RATING: 5V 500mA      SENSOR: BAMF

### Additional settings

You can download the all new **Glorious Core** software to further customize your settings. The software allows you to have access to more lighting effects with 16.8 million lighting effects to choose from), macro setup, rebinding of mouse functions, profiles, DPI adjustment and much more!

Download link: [www.gloriousgaming.com](http://www.gloriousgaming.com)

### Connectivity options: Wired/Wireless

**Wired mode:**  
Ascended USB A to USB C cable

**Working temperature:** 0-45°C

### Setting up

We recommend that you charge your mouse fully before using it for the first time in wireless mode. To do this, plug the USB A side of the cable into your computer, and plug in the other end into the USB C port on the front end of the mouse, keeping the side with the hex symbol facing up. The mouse can be used normally in wired mode. If using a USB C cable other than the provided Ascended cable, we recommend to use it only for charging as gaming with another cable may cause the port on the mouse to be damaged because of insufficient support.

Total charge time from zero to full is approximately 3 hours. Once the mouse is fully charged, you may use the adaptor provided to plug in the dongle and keep it close to the mouse for optimal performance. The dongle provided is paired with your mouse out of the box.

### Battery

When your mouse is low on power, the scroll will flash red intermittently, indicating that the mouse should be plugged in to charge to avoid turning off. When plugged in, the scroll wheel will go into Breathing mode in the colours corresponding to the battery level according to the table below:

Level	Color
Critical	Red
Low	Orange
Medium	Yellow
Fully charged	Green

The current battery level can also be found in the Glorious Core software.

**Note:** The battery life of the mouse is negatively impacted by the brightness level of the lighting. You can adjust the brightness through the software or use the button combination described in this guide to suit your preferences.

### Reset

If at any point you want to reset your mouse to factory settings, you can do so by pressing and holding down the left and right mouse buttons along with the scroll click for 5 seconds. When these buttons are pressed down, the mouse will flash green to indicate that the settings are being reset.

**Note:** This action will erase all profile information on the mouse and reset all settings to factory default.

### Support/Service

We want you to be happy with your new Model O Wireless mouse. If you have any questions or issues with your mouse, please do not hesitate to contact us. Alternatively, please visit us at [www.gloriousgaming.com](http://www.gloriousgaming.com) where you can find our frequently asked questions, troubleshooting tips, and look at other Glorious products.

These terms shall be governed by and construed under the laws of the jurisdiction in which the Product was purchased. If any term herein is held to be invalid or unenforceable, then such term (in so far as it is invalid or unenforceable) shall be given no effect and deemed to be excluded without invalidating any of the remaining terms. Glorious reserves the right to amend any term at any time without notice.

### Legal Info

#### FCC Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause interference to other equipment, you may be required to take certain measures which can be determined by future testing of the equipment off and on. The user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
  - Increase the separation between the equipment and receiver.
  - Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
  - Consult the dealer or an experienced radio/TV technician for help.
- This equipment must not be co-located or operating in conjunction with any other antenna or transmitter. End-users and installers must be provided with antenna installation instructions and consider removing the provided with antenna installation instructions and consider removing the

**no-co-location statement:** This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

#### Caution!

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's warranty to operate the equipment.

#### Canada Statement

This device complies with Industry Canada's licence-exempt RSSS. Operation is subject to the following two conditions:

- (1) This device may not cause interference, and
  - (2) This device must accept any interference, including interference that may cause undesired operation of the device.
- Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes:

- (1) l'appareil ne doit pas produire de brouillage;
  - (2) l'appareil doit accepter tout brouillage radioélectrique susceptible de le compromettre au fonctionnement.
- The device meets the exemption from the routine evaluation limits in section 2.5 of RSS-102 and compliance with RSS-102 RF exposure, users can obtain Canadian information on RF exposure and compliance.

Le dispositif respecte l'exemption des limites courantes d'émission dans la section 2.5 de la RSS-102 et la conformité à l'exposition de la RSS-102 RF, utilisateurs peut obtenir l'information canadienne sur l'exposition et la conformité de rf.

### WASTE ELECTRICAL AND ELECTRONIC EQUIPMENT INFORMATION (ENGLISH)

Correct disposal of This Product (Waste Electrical & Electronic Equipment) (Applicable in the European Union and other European countries with separate collection systems) This marking shown on the product or its literature, indicates that it should not be disposed of as waste. Instead, it should be taken to the designated collection point for the recycling of electrical and electronic equipment. This will prevent any possible harm to the environment or human health from uncontrolled waste disposal. Please separate this from other types of waste and recycle it responsibly to promote the sustainable reuse of material resources. Householders users should contact either the retailer where they purchased this product, or their local government office, for details of where and how they can take this item for environmentally safe recycling. Business users should contact their supplier and check the terms and conditions of the purchase contract. This product should not be mixed with other commercial wastes for disposal.
