Subject: Application Cover Letter for FCC ID: 2AXQ3G1P2L

Accompanying this letter is an application for certification under FCC rule part 15.247 for FCC ID **2AXQ3G1P2L**. The equipment contains a Bluetooth Low Energy radio.

The product name in the User Manual is **NoviOne RIC W-R**, the Equipment Model in the Application is **Kava Wireless**, and the product name in the Test Report is **Kava RIC**. These are all identifiers for the same product, represented by FCC ID **2AXQ3G1P2L**, and are used interchangeably in the attached exhibits. The "L" at the end of the FCC ID is to represent this device being designed to be worn on the **Left** ear.

This product is produced in two slightly different hardware variants, one with an MFi chip and one without an MFi chip. The RF design and layout is unchanged between the two variants. Thus, the variant without the MFi chip was fully evaluated and the variant with the MFi chip was spot checked to ensure no change in RF performance.

Sincerely,

A handwritten signature in black ink, appearing to read "Pete Salmi".

Pete Salmi, CEO
