RE: CONFIDENTIALITY REQUEST FOR **LOADTRACKER 1.0 EX / ASL1A**,
FCC ID: 2AXRX-ASL1A

To Whom It May Concern:

This letter serves as an official request for confidentiality under sections 0.457 and 0.459 of CFR 47.

We have requested that the **Block Diagram, Schematics, Internal Photos and Operational Description** required to be submitted with this application be permanently withheld from public review.

The product uses high-end technology with customized components to fulfill European and North American hazardous location, radio equipment and harsh environment requirements. As such, it is a unique product. The above-mentioned documents contain detailed system and equipment descriptions and proprietary information about the product that should never get into the possession of our competition.

The information contained in the Internal Photos exhibit is restricted from disclosure to non-consumers. The interior of the final product is encapsulated and enclosed. The provided internal photos show a non-encapsulated interior which is proprietary information.

Please contact me if there is any information you may need.

Sincerely,

Dominik Dumančić (Certification Engineer)
