A photograph of a blue printed circuit board (PCB) showing several electronic components. The components are arranged in a grid-like pattern. The components are labeled as follows:

- D14, D16, D17, D18: Four black, rectangular components, likely diodes or transistors, arranged in a row. Each has a circular logo with a 'P' and 'HC' and the number '1904'.
- C75, C77, C79, C80: Four small, rectangular, tan-colored components, likely capacitors, arranged in a row below the diodes.
- R67, R65, R66, R68: Four small, rectangular, tan-colored components, likely resistors, arranged in a row below the capacitors.
- C82: A small, rectangular, tan-colored component, likely a capacitor, located at the bottom right.

The PCB is blue with white silkscreen markings. There are also some other markings on the board, such as 'D38', 'C368', 'R120', 'C72', and '5L'.
