

<p style="text-align: center;">Solder Board-Component View 7</p>	 <p>A photograph of a black printed circuit board (PCB) component, labeled 'Solder Board-Component View 7'. The board is rectangular and features a large, silver, rectangular component in the center, which appears to be a heat sink or a specialized chip. The board is populated with various electronic components, including capacitors, resistors, and integrated circuits. A ruler is placed to the left and bottom of the board for scale, showing measurements in millimeters. The ruler on the left is oriented vertically, and the ruler on the bottom is oriented horizontally. The background is a plain, light blue surface.</p>
<p style="text-align: center;">Solder Board-Component View 8</p>	 <p>A photograph of a black printed circuit board (PCB) component, labeled 'Solder Board-Component View 8'. The board is rectangular and features a large, blue, square component in the center, which appears to be a microcontroller or a specialized chip. The board is populated with various electronic components, including capacitors, resistors, and integrated circuits. A ruler is placed to the left and bottom of the board for scale, showing measurements in millimeters. The ruler on the left is oriented vertically, and the ruler on the bottom is oriented horizontally. The background is a plain, light blue surface.</p>

<p style="text-align: center;">Solder Board-Component View 9</p>	 A photograph of a blue printed circuit board (PCB) component, labeled 'Solder Board-Component View 9'. The board is rectangular and populated with various electronic components, including a large square chip in the center with 'Analogix HD' printed on it. A black ruler is placed vertically to the left of the board, showing measurements in millimeters from 0 to 100. The board is set against a blue fabric background.
<p style="text-align: center;">Solder Board-Component View 10</p>	 A photograph of a green printed circuit board (PCB) component, labeled 'Solder Board-Component View 10'. The board is smaller and populated with several integrated circuits and surface components. A black ruler is placed vertically to the left of the board, showing measurements in millimeters from 0 to 50. The board is set against a blue fabric background.

<p style="text-align: center;">Solder Board-Component View 10</p>	 <p>A photograph showing a small green PCB component mounted on a solder board. The component is labeled 'DK25-S1_V2.2' and 'derkiot.com'. It has several pins and pads. A ruler is placed next to it for scale, showing measurements in millimeters. The ruler has markings for 10, 20, 30, 40, and 50 mm. The component is approximately 25 mm long and 15 mm wide. The solder board is blue.</p>
<p style="text-align: center;">Antenna View</p>	 <p>A photograph showing the internal components of a device, specifically the antenna area. Two antennas are labeled: 'NFC Antenna' and 'WiFi Antenna'. The NFC antenna is a small black component, and the WiFi antenna is a larger, more complex component. The device is shown from the back, with the metal casing removed. The internal components are connected by various wires and cables. The device is placed on a blue surface.</p>
