Safety Precautions

Warning	Read the safety instructions carefully before using the product.
Caution	Do not touch the fan blades or the filter when the power is on.
Precaution	Do not use the product in a humid or dusty environment.
After-sales	For more information, please contact our customer service.
Disclaimer	The manufacturer is not responsible for any damage caused by the use of the product.

Property and Dimensions

Model	AG+ Amp Silver Ion Antimicrobial Air Purifier
Color	White
Material	ABS, PC, PMMA
Weight	10.5kg
Dimensions	250mm (W) x 250mm (D) x 450mm (H)
Power	20W
Voltage	100-240V
Frequency	50/60Hz
Power Cord	1.5m
Filter Life	3 months
Warranty	1 year

Technical Specifications

Model	AG+ Amp Silver Ion Antimicrobial Air Purifier

FCC Warning

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.
