

Magnetic Charging Cable

Before using this product, please read this manual carefully.
Keep this manual for future reference.

FCC Warning

This device complies with part 15 of the FCC Rules. Operation is subject to the following conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance may void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference to a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not properly used and maintained, may cause interference to other electronic equipment. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC RF exposure statement:

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be used and operated with specified distance between the radio and your body.

Made for Match

Match 0 Match 1
Match 7 Match 4
Match 8 Match 3
Match 10 Match 2

Specifications

Model: T20
Type: USB-A
Output: 5V 1000mA
Input: 5V 1000mA
Certification: CE, FCC, RoHS

Safety warning

1. Do not put the product into fire or water to avoid short circuit leakage or damage the product.
2. Please check the product, data safety and other accessories before use. Improperly use original product or you make any change.
3. Do not use the product in a high temperature, humid or corrosive environment, so as not to damage the device and prevent charging or other.
4. Do not contact the product with corrosive liquids, otherwise it will cause device damage and the product will not be guaranteed.
5. Do not disassemble or modify this product for expansion, so as to avoid secondary harm and burning, which is not covered by the warranty.
