Receiving Call, Text, & Reminders

To enable notifications on your watch:
① Verify that BT is enabled on your mobile device.
② Open the Joywear 2 App on your mobile device and tap the "Device" at the bottom of the mobile dashboard.
③ Enable Phone/SMS/App/Alarm/Sedentary Reminder notifications.

Phone Notification
When you receive a phone call, your watch vibrates and the incoming number or name (if the contact is in your address book) will display. Once reject function in App is turned on, you can long press to reject phone call.

Message Notification
When you receive a message, your watch vibrates. Tap to check message.

Setting Silent Alarms
You can add, edit, and delete silent alarms from the Joywear 2 App.

Notification When Sitting Too Long
Watch vibrates when you sitting too long. The default reminder time is 60 minutes. You can change reminder time or close reminder from the Joywear 2 App.

Sleep Tracking

Automatically recognize your status and monitor the whole sleep status with analyzing deep sleep, light sleep and awake times.
Sleep data could be only checked from the Joywear 2 App.

Troubleshooting

Can't connect with BT.
1.Make sure your device supports BT 4.2. Make sure your device's software is or above iOS 8.0 or Android 4.4.
2.Restart BT and reconnect after 20 seconds.
3.Restart mobile phone.
4.Make sure mobile phone is not connected with other device.
5.Make sure Joywear 2 is running in system.

Can't search the product.
Make sure your location services are enabled (GPS is working), the product has enough power, the product does not connect with other phone and under activated state, then keep the product close to your phone.
If still can not search it, please turn off BT function and reconnect after 20 seconds.

Can't monitor heart rate.
Make sure you wear tightly enough to monitor heart rate.

Can't receive notifications after enabling it.
Android phone: Make sure the product is connected with your phone. Allow Joywear 2 App to access notifications. If any security App installed, add Joywear 2 to trust list.
iPhone: Make sure the product is connected with your phone. Reboot your phone and reconnect it with the product.

Is the product waterproof?
This product supports IP67 waterproof which allows the product to be held in water for a maximum of 30 minutes at a depth of 1 metre. You can wear it while washing your hands, having a cold shower or washing your car. Please do not wear it while diving or scuba diving.

Do I need to connect BT all the time? Are there data left when product disconnected with mobile via BT?
Data will be kept in product for seven days. When product is connected with mobile, data will be uploaded to mobile automatically. Kindly synchronize product data to mobile in time.
Note: Call and message notifications only work under BT connection status.

FCC Caution: This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2)this device must accept any interference received, including interference that may cause undesired operation.
Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
-Reorient or relocate the receiving antenna.
-Increase the separation between the equipment and receiver.
-Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
-Consult the dealer or an experienced radio/TV technician for help.
The product shall only be connected to a USB interface of version USB2.0
The device has been evaluated to meet general RF exposure requirement.
The device can be used in portable exposure condition without restriction.

Setting Up Your Smart Watch

For the best experience we recommend using the Joywear 2 App for iOS and Android.

 iOS 8.0 or above
 Android 4.4 or above

Setting up the watch on your phone

To get started:
1. Find the Joywear 2 App in one of these locations, depending on your device:

 The Apple App Store for iPhone.
 The Google Play Store for Android phone.

2. Install the App. Note that if you don't have an account with the store you'll be required to create one before you can download the App.
3. When the App is installed, open it and be guided through a series of questions that help you create your account, or login to your existing account.
4. Continue following the onscreen instructions to connect, or pair the product to your phone or tablet.

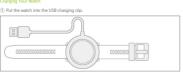

Your account asks for information such as height, weight, and gender to make various calculations such as stride lengths to estimate distance and basal metabolic rate to estimate calorie burn. You can modify your information in Joywear 2-Profile-Me.

When you're done pairing, read through the guide about this product and then explore the dashboard.

Getting To Know Your Smart Watch

Wrist Placement
For all-day wear, your watch should usually rest a finger's width below your wrist bone and lay flat, as you would normally wear a watch.

Charging Your Watch
① Put the watch into the USB charging clip.

---

② Insert the USB into chargers or laptops.

③ The screen displays as follows when charging.

④ The screen displays as follows when charging completed.

Power On/Off
- When the watch is under shutdown mode, charge the watch or long press the home button for 3 seconds to power on the watch.
- When the watch is turned on, swipe the screen to the Setting function, tap to enter. Then swipe to the "Off" and tap to confirm, the watch vibrates and shuts down.

Waking A Dimmed Screen
When you're not using this product, the display is off. To wake it up:
- Press the home button.
- Turn your wrist towards you. This behavior, known as Light Up, can be turned off in your smart watch settings in Joywear 2.

Using The Clock And Menus
The home screen is a clock. On the clock face you can swipe to see your steps taken, distance, calories burned, heart rate, training, weather, message, music, stopwatch and function.

Change Clock Face
Long press for 3 seconds to enter and then swipe to view different clock faces. Tap once to confirm.

* You can pick and download more clock faces from Joywear 2 APP

* Or choose to customize clock face from Joywear 2 APP

Distance — Shows your current distance.
Steps — Shows your current steps taken.
