Please read this Guide carefully before using the product

Product Overview

Setting Up Your Smart Watch

iOS 11.0 or above
Android 6.0 or above

For the best experience we recommend using the updated oraimo Health App for iOS and Android.

Pair With Your Phone

1. Get ready with the oraimo Health App, scan the QR code on your watch or find the oraimo Health App in one of these locations, depending on your device:

2. When the App is installed, open it and follow the instructions that help you create your account, or login to your existing account.

3. Your account asks for information such as height, weight, and gender to make various calculations and tailor your experience using the app. You can modify your information in oraimo Health – Account - User

4. Long press the side button of the watch to turn it on, follow the onscreen instructions to setup the language, and get ready pairing with the phone.

Scan the QR code to pair:

Device QR code

If you can't pair successfully, try the following methods:
1. Make sure the BT permission is allowed for the app;
2. Make sure the watch is not connected with another phone;
3. Try turning off and on again the BT switch on your phone;
4. If none of these work, try rebooting your phone and the watch, and repeat the above steps again.

Bluetooth Call

Before pairing your phone and the watch for the Bluetooth Call function, make sure the Bluetooth for call on the watch is switched on:

Method 1:

Press the side button in the main dial, tap the Phone menu item to switch on the Bluetooth for call on the watch.

Method 2:

Swipe down from the main dial to enter the below interface, follow the picture to turn on the Bluetooth for call.

And then find the "oraimo Watch 2 Pro_XXXX" device in your phone's Bluetooth - Available Devices list. Tap on the name and tap "Yes" in the pop-up window.

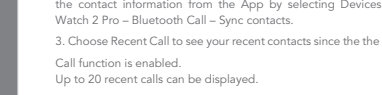

In Android

In iOS

1. After you are connected, choose Dialpad to start calling.
2. In the Contact menu, up to 10 contacts can be displayed. You can sync the contact information from the App by selecting Devices - oraimo Watch 2 Pro - Bluetooth Call - Sync contacts.
3. Choose Recent Call to see your recent contacts since the the Bluetooth Call function is enabled.
Up to 20 recent calls can be displayed.

Power On/Off

• When the watch is powered off, charge the watch or long press the home button for 3 seconds to power it on.
• When the watch is turned on, press and hold the side button for 3 seconds. Choose Power Off and tap again to confirm. The watch vibrates and turns off. You can also power off from the "Settings" menu. (Settings - System Settings - Power Off)

Wake Up the Watch

When you're not using this product, the display is off. To wake it up:
• Press the side button.
• Turn your wrist towards you. This function, known as "Raise to Wake", can be turned off in Settings - Raise to wake - Raise to wake. You can also schedule when it's activated during the day.

Using The Clock And Menus

The home screen is a clock. From here you can swipe to see data about your steps, activity time, calories, heart rate, and functions like training modes, weather, message, music, etc.

Troubleshooting

Can't connect with BT.
1. Make sure your device supports BT 5.1. Make sure your device's software is or above iOS 11.0 or Android 6.0.
2. Restart BT and reconnect after 20 seconds.
3. Restart your phone.
4. Make sure your phone is not connected with other devices.
5. Make sure oraimo Health App is running in your phone's system.

Can't find the watch through Bluetooth.
Make sure your location services are enabled (GPS is working), the product has enough power, it's not connected with another phone and is powered on, then keep it close to your phone.
If you still can not find it, please turn off your phone's BT function and reconnect after 20 seconds.

Can't monitor heart rate.
Make sure you wear the watch tightly enough and it's positioned properly to monitor heart rate.

Troubleshooting

Can't receive notifications after enabling it.
Android phone: Make sure the product is connected with your phone. Allow oraimo Health App to access notifications. If any security App installed, add oraimo Health to trust list.
iPhone: Make sure the product is connected with your phone. Reboot your phone and try to reconnect with the product.

Is the product waterproof?

This product supports IP68 waterproof which allows the product to be held in water for a maximum of 30 minutes at a depth of 1 metre. You can wear it while washing your hands, having a cold shower or washing your car. Please do not wear it while diving or scuba diving.

Do I need to connect BT all the time? Will my health and sleep data stored if not connected to the phone?

Data will be kept in the watch for seven days. When it is reconnected to the phone, your health and sleep data will be synced automatically. Please remember to synchronize data with the phone in time to get maximized utility.
Note: Call and message notifications only work when BT is connected.

FCC Caution:
Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

IMPORTANT NOTE:
Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or

more of the following measures:
-Reorient or relocate the receiving antenna.
-Increase the separation between the equipment and receiver.
-Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
-Consult the dealer or an experienced radio/TV technician for help.
FCC Radiation Exposure Statement:
This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment.
