### Product Description

Thank you for choosing our products. This product is a smart atomizing air freshener that can connect to apps (Huawei AI Life App/Baseus App) for operation. It adopts ultrasonic sheet atomizers to atomize the essential oil and then spray out, quickly diffusing the scent for a pleasant environment. It has a round and attractive design. Before using this product, please read this manual carefully and keep it for future reference.

### Product Structure

Power switch (press/rotate/press and rotate)

Indicator light

Type-C charging port

Spray nozzle

### Indicator Light

Normal operation: ice blue breathing light

During charging: LED green flashing light

Fully charged: LED green light is normally on for 1 minute and then turns into the ice blue breathing light.

Adjustment: LED light flashes (when adjusting)

Standby state: The light is off.

Shutdown state: The light is off.

### Usage

#### Operating Instructions

Turn on/off: Press the power switch for 2 seconds, then the light turns on, and it sprays once.

Fog volume: Rotate the power switch clockwise to increase the volume, and rotate counterclockwise to reduce the volume (continuously rotating the switch when it reaches the maximum or minimum will stop spraying.)

Spray duration: Press and rotate the switch clockwise to increase the duration, and press and rotate counterclockwise to reduce the duration (the shortest duration is 0, and the longest duration is 3 seconds).

Standby: Enters standby mode when no vibration or operation is detected within 3 minutes.

Restart: Restarts when vibration or any key operation is detected.

## Connection Instructions

Scan the QR Code to download the app

Baseus version (download the Baseus App, and open the wireless function of your cell phone).

1. Press the power switch for 2 seconds to turn on.
2. Open the Baseus App.
3. Tap “add a device” in the app to add Baseus Smart Atomizing Air Freshener.

Note: Connection should be completed within 3 minutes after power-on, otherwise a restart is required for connection.

If the connection fails or the device cannot be found, please restart the device and try again.

## Restoring factory settings

Open the bottom case, and press and hold the “rest” button for 10 seconds.

## Installation Instructions

1. Prepare the main body of the product and the essential oil container.
2. Rotate the bottom case clockwise to open.
3. Rotate the lid of the essential oil container to open, and keep the cotton stick still.
4. Align the container to the main body and press it in.
5. Rotate the bottom case to close.
6. Remove the protective film of the bottom removable adhesive, and choose an appropriate place to install the product.

Note:

1. Please be careful when opening the lid of the essential oil to avoid spilling and dropping the cotton stick.
2. Install the essential oil container in place (flush with the bottom).

## Tips

1. Avoid placing the product in high temperatures or under direct sunlight as much as possible.
2. Avoid placing the product within the range of a car airbag fully ejected.
3. Avoid placing the product on a surface that cannot keep the product level.
4. Avoid using the product in a dusty or complicated environment.
5. The product should be regularly recharged to maintain sufficient power.
6. The product may accumulate water drops on the surface when it is used in low temperature environments. Please wipe off immediately. It will not affect the normal use.
7. Essential oil has slight corrosive effects. Please avoid prolonged exposure to the skin and dashboard.
8. The product adopts a high gloss curved surface treatment. Please use a soft cloth to wipe off residual fingerprints and other foreign objects to avoid scratching the surface.

### Caution

1. This product is not a toy, so it is prohibited to be used by children.
2. This product has a built-in lithium battery. It is prohibited to throw it into fire or discard it carelessly. Lithium batteries may cause fire and explode from overheating, getting hit, and coming in contact water, so please avoid placing it in a complex or high-temperature environment for long periods of time.
3. The battery of the product may be damaged if left idle for a long time, so please keep the product sufficiently charged.
4. Please use this product in a clean environment.
5. The product is an atomizing air freshener with a polymer sheet atomizer. Please do not use ordinary tissues to clean the plugged-in sheet atomizer, but use a dust-free cloth to gently wipe it.

### Installation Guide for Replacing Empty Essential Oil

1. Rotate the bottom case clockwise to open and remove the empty essential oil container.
2. Rotate and open the lid of a new essential oil container, keeping the cotton stick still.
3. Align the container to the main body and press it in (keeping the mouth of the container facing up).
4. Rotate and close the bottom case.

## FCC Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer

could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

RF Exposure Information

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
