

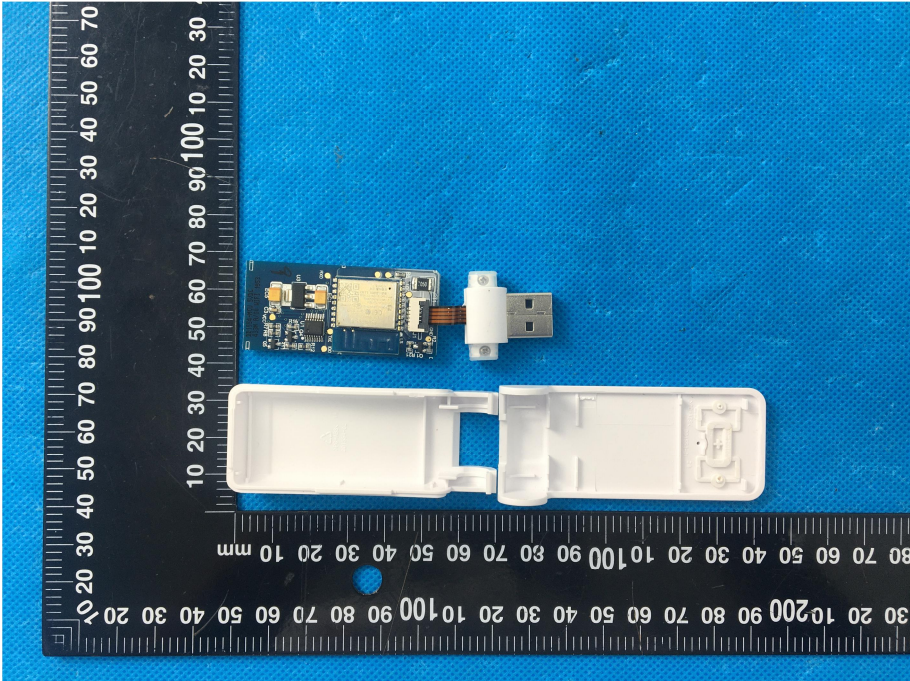

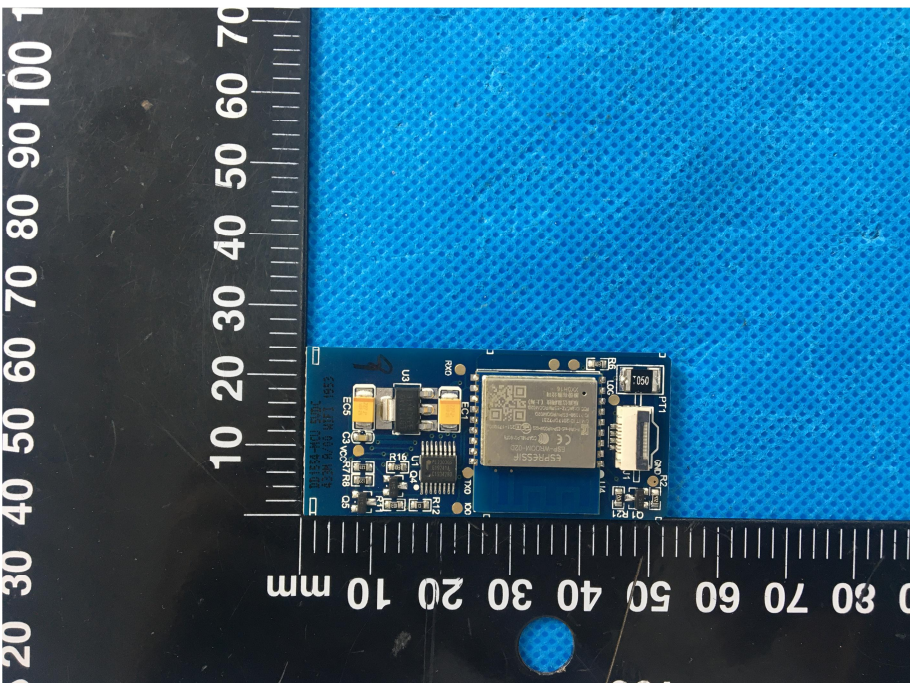

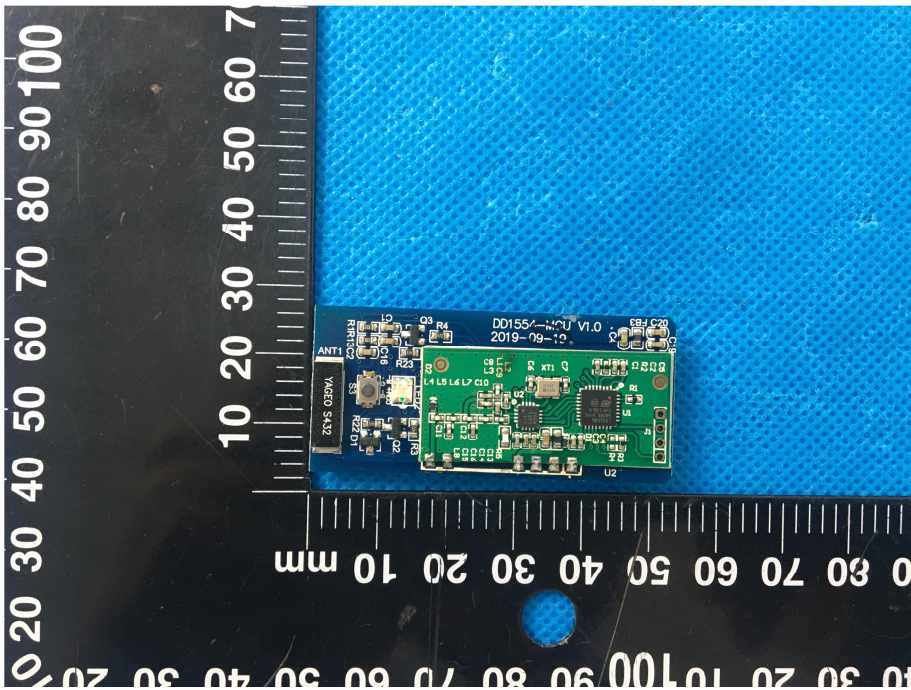

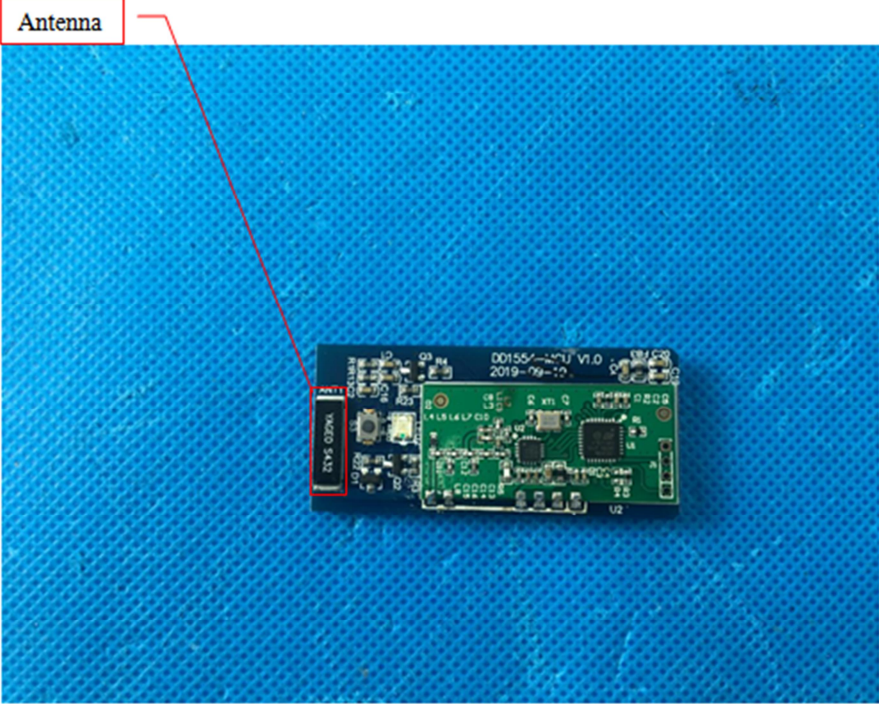

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

<p>EUT Housing and Board View 1</p>	 <p>This photograph shows the external components of the EUT. On the left is a white plastic housing, partially open to reveal internal mounting points. To its right is a small blue printed circuit board (PCB) with a white USB connector. A black ruler is placed vertically to the left of the components, showing measurements in millimeters from 0 to 100. The background is a blue textured surface.</p>
<p>Solder Board-Component View 1</p>	 <p>This is a close-up view of the PCB components. The board is populated with several components, including a large square integrated circuit (IC) labeled 'ESPRESSIF', a USB connector, and various passive components like resistors and capacitors. A black ruler is positioned vertically to the left of the board, providing a scale in millimeters from 0 to 100. The background is the same blue textured surface as in the previous view.</p>

<p style="text-align: center;">Solder Board-Component View 2</p>	 <p>A photograph of a green printed circuit board (PCB) component, model DD1554-147U V1.0, revision 2019-09-19. The board is shown against a blue textured background. A black ruler with white markings is placed vertically to the left of the board, showing measurements from 0 to 100 mm. The board features various electronic components, including a microcontroller, capacitors, and resistors. A small antenna component is visible on the left side of the board, labeled 'ANT1'.</p>
<p style="text-align: center;">Antenna View</p>	 <p>A photograph of the same green PCB component, model DD1554-147U V1.0, revision 2019-09-19, shown against a blue textured background. A red rectangular box highlights the antenna component on the left side of the board, labeled 'ANT1'. A red line with an arrow points from the text 'Antenna' in a red box above the image to the highlighted antenna component.</p>
