

Scope of application :

The antenna is suitable for compact applications on industrial production lines. Small size, ceramic antenna design, has the advantages of not being easily interfered, and easy to control the reading range. Especially suitable for many factory production lines.

Specification :

- Module: A1050C
- Frequency: 902MHz~928MHz
- BW: > 15Mhz
- Zenith Gain: 3 dBi
- VSWR: 2.0: 1 max
- Tag: Best 1.0M @24dB
- impedance: 50 Ω
- Antenna Size: 75 (L) x 57 (W) mm
- Working Temperature: -25 °C~70°C
- Connector: SMA
