

Thank You For Purchasing Your BusyBox® Sign

For the best, and most recent information on BusyBox smart signs, please go to our website:

www.BusyBoxSign.com

For a Visual Setup Guide Go To: www.BusyBoxSign.com/setup

1. Charging: First, please charge the battery using the included USB-C cable and your USB outlet. Simply remove the decorative front cover from the BusyBox -- it's held on with magnets -- and plug in the included cable. See below for a visual to locate the USB-C port on your BusyBox smart sign.

2. App: While the BusyBox smart sign is charging, download the app. You can get it quickly by scanning the QR code found on the back of this quick start guide and on the box, or find it in your device's app store. For more information on the BusyBox App go to our website.

3. Setup: Once you have the app and your BusyBox sign is fully charged, follow the instructions on the App to connect to your BusyBox sign. It will walk you through a setup tutorial. To see the most up-to-date list of app integrations, and the roadmap of future integrations, review the "Software" page on our website.

4. Mounting: Use the included wall mount and 3M Command™ Strips to hang the included wall mount plate to a wall or door. Hang the mount, not your BusyBox sign, for the best experience. Then slide the BusyBox sign onto the hooks on the wall mount. To recharge your BusyBox, simply remove it from the wall mount, take off the cover, and plug it in with the a USB-C cable (one is included).

FCC Warnings

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment.

This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.

FCC IDs: 2AYDY-BZYBXD
