Safety Information

Before using and operating this device, read the following precautions to ensure optimal device performance and avoid dangers or unauthorized operations.

-  To prevent hearing damage, avoid using the device at a high volume for long periods of time.
 - Some wireless devices may interfere with implantable medical devices and other medical equipment, such as pacemakers, cochlear implants, and hearing aids.
 - When using the product, keep it at least 15 cm away from such medical devices.
 - Consult the manufacturer of your medical equipment for more information.
- Use this device at temperatures between 0°C and 45°C and store this device and its accessories at temperatures between -20°C and +60°C. Extreme heat or cold may damage this device.
- When charging this device, ensure that the charger is plugged into a nearby power socket that is easy to reach. Disconnect the charger from this device and unplug the charger from the power socket once this device is fully charged.
 - Ensure that the power adapter meets the requirements of Clause Q.1 in IEC62368-1/EN62368-1 and it is tested and approved according to national or local standards.
 - Observe all local traffic laws and regulations while using this device. Do not use this device while driving.
 - Keep this device and its accessories that may contain small components out of the reach of children. Otherwise, children may damage this device and its accessories by mistake, or swallow small components, which may cause choking.
 - Do not expose this device and its accessories to rain or moisture, as this is a potential re hazard and may cause you to experience an electric shock.
 - Avoid placing this device or its accessories in environments that are too hot (for example, near heat sources or open flame) or cold as this may cause device malfunctions or even explosions.
 - Do not disassemble, drop, hit, squeeze, or modify the device battery. Do not insert foreign objects into the device battery, or otherwise puncture it. Do not submerge

the device battery in water or other liquids. Do not store the device battery in high-temperature environments as this may cause it to short-circuit, overheat, leak, catch on fire, and even explode.

- Avoid disassembling or modifying this device and its accessories. Unauthorized disassembly and modifications may result in voiding of the factory warranty. If your device is faulty, visit an authorized Honor Customer Service Center for assistance.
- Respect local laws on the disposal of this device and its accessories and support recycling efforts.
- If you experience skin discomfort when wearing the device, take it off and consult a doctor.

Disposal and recycling information

The symbol on the product, battery, literature or packaging means that the products and batteries should be taken to separate waste collection points designated by local authorities at the end of life. This will ensure that EEE waste is recycled and treated in a manner that conserves valuable materials and protects human health and the environment.

For more information, please contact your local authorities, retailer or household waste disposal service or visit the website <https://www.hihonor.com/>.

EU regulatory conformance Statement

Hereby, Honor Device Co., Ltd. declares that this device T0005 is in compliance with the essential requirements and other relevant provisions of Directive 2014/53/EU, EU REACH regulation, RoHS and Batteries (where included) directive.

The most recent and valid version of the DoC (Declaration of Conformity) can be viewed at <https://www.hihonor.com/global/legal/certification/>.

This device may be operated in all member states of the EU.

Observe national and local regulations where the device is used.

This device may be restricted for use, depending on the local network.

Frequency Bands and Power

Bluetooth: 2402 MHz-2480 MHz: 8 dBm.

RF Exposure Information

This device is a low-power radio transmitter and receiver. As recommended by

international guidelines, the device meets applicable national SAR limits of 2.0W/kg (10g) and 1.6W/kg (1g).

10g SAR: meets low-power exclusion level, SAR test is not required.

FCC Regulatory Compliance

RF Exposure

Your device is a low-power radio transmitter and receiver. As recommended by international guidelines, the device is designed not to exceed the limits established by the Federal Communications Commission for exposure to radio waves.

FCC statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Caution: Any changes or modifications to this device not expressly approved by Honor Device Co., Ltd. for compliance could void the user's authority to operate the equipment.
