FCC ID: XXXXXXXXXXXXX

FCC Caution:
This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- . Reorient or relocate the receiving antenna.
- . Increase the separation between the equipment and receiver.
- . Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- . Consult the dealer or an experienced radio/TV technician for help.

LTE HUB GETTING STARTED GUIDE

WHAT'S INSIDE

A Siden Hub device

*batteries not included

B Bluetooth remote control*

C Power Supply

D HDMI cable

E AV cable

F 2 Antennas

G Getting Started Guide

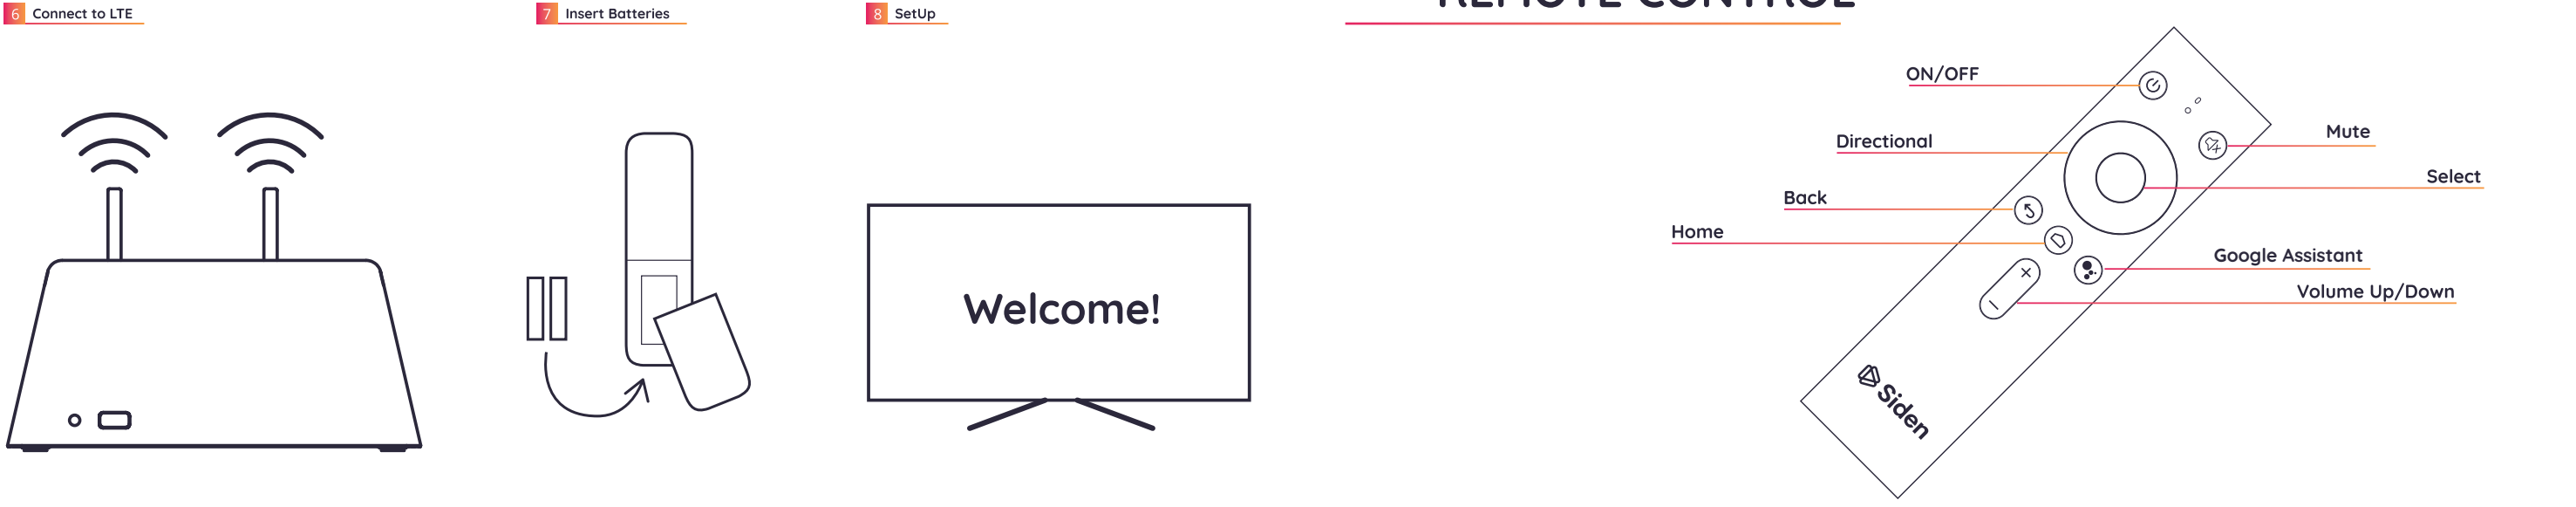

LET'S START!

* Optional AV cable is not included

REMOTE CONTROL

USEFUL INFORMATION

How to reset Siden LTE Hub back to factory default

1. Plug the Hub into the Hub's power cable
2. Remove any cable from the Hub's AV port
3. Insert a small solid pin or needle into the AV port
4. The inserted pin/needle will press a button inside of the AV port.
5. Continue holding the button with the pin/needle for 5 seconds or until the power light on the front of the Hub goes off and then comes back on
