Item Name	Four button remote control	Item number	SFRC
-----------	----------------------------	-------------	------

a S d p t i p r a e u g a r r a u a n u m n c e a l			
	Product size (MM)	80*34.5*6.5	Weight(g)

Product specification parameters

No	Item	Specifications	Remarks
1	Product features	Hold the any button, Send the corresponding code/With 433.92MHZ remote control products used	
2	Vibrator Uses batteries	DC 3V CR2025 Button cell	
3	Machine standby current	$\leq 10\mu A$	
4	Product PCB Item No	LY0TX0-01	
5	Operating frequency of remote control	433.82MHZ	
6	Machine operating current	$\leq 20MA$	

7	Product battery life	≥ 2 hours	Hold on test
8	Product materials	The product USES environment-friendly ABS plastic	
9	Product waterproofing grade	IPX0	

FCC ID: 2AYGSSFRC

FCC Caution:

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment.
